ANNEXURE

In the matter of an industrial dispute between Messrs. Indian Patent Stone Co. (P) Ltd., 56 Canal East Road, Beliaghata, Calcutta-10, and their workmen represented by Indian Patent Stones Workers' Union, 82 Dr. Suresh Sarkar Road, Calcutta-14. Case No. VIII-C—272 of 1958.

BEFORE THE SECOND LABOUR COURT, WEST BENGAL

Present

Shri HEM RANJAN DEB, Presiding Officer, Second Labour Court.

Under section 10 of the Industrial Disputes Act, Government of West Bengal, Labour Department, by their order No. 4419-I.R./IR/111-533/58, dated Calcutta, the 15th October 1958, referred an industrial dispute between Messrs. Indian Patent Stone Co. (P) Ltd., and their workmen represented by Indian Patent Stones Workers' Union, to the Second Labour Court, for adjudication.

Issue formulated in the order of reference is as follows:—

> Whether the dismissal of Shri K. P. Chakraborty is justified? To what relief is he entitled?

The case of the Union, briefly stated, is as follows:

Shri K. P. Chakraborty, the workman in question, was appointed as the Assistant Supervisor on probation for a period of six months on 10th October 1947, in Calcutta by the Indian Patent Stone Co. (P) Ltd. He was confirmed in the post on 1st June 1948 in the grade of Rs. 100—10—150. He was given the annual increment for four years up to 1952. Since 1953 he was not given the annual increment. He made repeated representations to the company for the increment. Ultimately in the year 1955 the company gave him an increment of Rs. 5. The repeated representations made by him for getting his increments annoyed the company which transferred him to Bansjora in Bihar in the year 1957 in order to punish him. He asked for some clarifications and made certain demands about his transfer to Bansjora. The company did not accept those demands and asked him to carry out the order of transfer. He could not carry out that order without getting an understanding from the company about his demands. Then the company dismissed him by a letter, dated 4th November 1957, without giving him a charge-sheet or holding any enquiry.

The company admits that the workman in question was transferred to Bansjora. Its contention is that the transfer was made for the exigencies of business and not with any motive to punish the workman. Its case is that at the relevant time the company had no work for the workman to do and the only work for which he could be useful was being done at Bansjora. So the company transferred him to that place. He deliberately disobeyed that order. So the company has dismissed him for insubordination.

Appearances of the parties is as follows—

For the Company: Shri M. S. Bala, assisted by Shri N. K. Guha Roy, Shri N. Venkatram and Shri R. C. Guha, officers of the company.

For the Union: Shri Swadesh Gupta, President of the Union.

AWARD

The company has raised a preliminary objection that this is not an industrial dispute. Its arguments are as follows:

According to the evidence of the President of the Union, about 75 workmen of the company were the members of the Union at the relevant time. According to the evidence of the Manager of the company there were then about 300 workmen in the company. So the Union which has espoused the cause of Shri K. P. Chakraborty does not represent a majority of the workmen of the company. For this contention the company's representative relies on a decision of the Hon'ble Mr Justice Sinha of the Calcutta High Court in a case where his Lordship used the word "majority" of workmen. In that decision the Hon'ble Mr. Justice Sinha held that in order to convert a dispute into an industrial dispute the cause of the workmen should be espoused by a majority of workmen or by the Union. He has not held that the Union must consist of majority of workmen. The trend of decision on this point is that the case of a workman should be espoused by a substantial section of workmen. In this case it is obvious that the case of Shri K. P. Charaborty has been espoused by a substantial section of workmen engaged in the work of the company. So I hold that this is an industrial dispute.

As regards the issue in question it is admitted on all hands that Shri K. P. Chakraborty did not

obey the order of transfer. His contention is that he did not disobey the order voluntarily; he wants to say that he was forced by circumstances beyond his control and under the company's control to disobey that order. So the crucial question is whether the order of transfer was justified and bona fide and whether Shri K. P. Chakraborty was justified in disobeying that order on the ground of non-fulfilment of his demands. It has been held in more cases than one that transfer is an incidence of service unless otherwise stated specifically in the contract of service. In the instant case there is nothing to show that the company relinquished its right to transfer when it appointed Shrijut Chakraborty. So the order of transfer is justified. The Union has contended that the order was made in order to punish him. The company has adduced evidence to show that at the relevant time the company had no suitable work to offer to Shri K. P. Chakraborty in or near Calcutta. The Union has not been able to challenge this portion of the evidence on behalf of the company. The Union representative has argued that if the company could not offer any work to Shri K. P. Chakraborty in or near Calcutta, it could as well retrench him and give him the benefits of retrenchment. The company might have well done this; but it appears from the evidence that the company thought that Shri K. P. Chakraborty would prefer to be in service to being unemployed. There is nothing in evidence to show that the company had any ill motive in transferring Shri K. P. Chakraborty. So I hold that the order of transfer was bona fide and was passed for trade reason.

Shri K. P. Chakraborty made certain demands including out-station allowance. The company replied that he would get the usual out-station allowance. This ought to have satisfied Shri K. P. Chakraborty or he might have asked for clarification as to what the usual out-station allowance meant. He says that he made the other two demands as he was under the impression that the transfer was permanent. He has not adduced any material on which he came to that conclusion. The proper course for him should have been to obey the order of transfer and then to make the demands if he found that he was to stay at Bansjora permanently. So he was not justified in disobeying the order of transfer. In the circumstances I hold that he disobeyed the order wilfully.

It is true that no formal charge-sheet was issued to him nor was any enquiry held. But this did not ipso facto make the order of dismissal invalid. It only gives this Court a right to enquire into the validity of the order of dismissal. In the instant case though no charge-sheet was issued, Shri K. P. Chakraborty was informed in unequivocal language that dismissal would be the result of disobedience of the order of transfer. So the non-issue of any formal charge-sheet has not created any doubt in the mind of Shri K. P. Chakraborty as to what his offence was. As to non-holding of enquiry, it is not understood what useful purpose would be served by holding of an enquiry in the circumstances of this case. As a matter of fact in his letter, dated 30th October 1957 [copy exhibited A(1)], Shri K. P. Chakraborty has told the company that it might do what it thought best. This settles, once for all, what stand Shri K. P. Chakraborty would take if any enquiry was held. So non-issue of charge-sheet or non-holding of any enquiry are immaterial in the circumstances of the present case.

In view of the above considerations, I hold that the dismissal of Shri K. P. Chakraborty was justified. As such, he is entitled to no relief.

ANNEXURE

In the matter of an industrial dispute between Messrs. Serampore-Bandel Bus Association (Route No. 2 via Chinsurah Court and extended up to Polba), Chinsurah, Hooghly, and their starters and clerks represented by Serampore-Chinsurah-Boinchee Bus Workers' Union, Chinsurah, Hooghly. Shri HEM RANJAN DEB, Presiding Officer, Second Labour Court.

For the Association: Shri K. K. Maitra, Advocate.

For the Union: Shri N. R. Roy, Advocate.

Government of West Bengal, Labour Department, by their order No. 2980-I.R./IR/4L-34/58, dated Calcutta, the 17th July 1958, referred to the Second Labour Court under section 10 of the Industrial Disputes Act, an industrial dispute between Messrs. Serampore Bandel Bus Association and their starters and clerks, represented by Serampore-Chinsurah-Boinchee Bus Workers' Union, for adjudication.

Issues contained in the order of references are as follows:-

Issues

(1) Working hours and overtime.

(2) Dearness allowance.

(3) Compensatory holidays in lieu of festival holidays.

(4) Gratuity.

(5) Provident Fund.

Messrs. Serampore Bandel Bus Association is an association of the owners of the buses plying on Route No. 2 in the district of Hooghly. It controls the running of buses in that route according to the time schedule prepared by it. For this purpose it employees a number of starters and clerks. The present dispute is between the Association and its starters and clerks over the issues mentioned in the order of reference. The Association has raised a preliminary objection that as the Association is a "non-profit-making" body, this dispute is not an industrial dispute. But it is now a settled law that industry according to the provision of the Industrial Disputes Act includes a non profit-making employer also. So this objection is rejected straight-away. I now consider the issues.

Issue No. 1—Working hours and overtime: The case of the Union is that working hours of the workmen, viz., starters and clerks are from 7 a.m. to 1-30 p.m. and from 1-30 p.m. to 9-30 p.m. Thus the hours of work are 7½ hours in one shift and 8 hours in the other shift. The Union contends that this difference of working hours is bringing an invidious distinction between workmen and workmen. It demands that the working hours should not be more than 7½ hours a day including half an hour's recess. The contention of the Association is that it had to fix the above hours of duty in order to stick to the time table of buses as approved by the R.T.O. Workmen are allotted duties in two shifts by rotation. So there is no scope for invidious distinction between workmen and workmen and it is also not possible to decrease the hours of duty without curtailment of the time schedule of the buses. The Association also contends that starters got sufficient rest in the interval between the arrival of two successive buses. On a consideration of the oral evidence adduced and the papers exhibited in this case I hold that the contention of the Association on this issue are just and reasonable. In comparison with the work of such workmen in other Associations it cannot said that the hours of duty of the workmen in question are causing them any hardship. So I find no reason to direct the Association to change the hours of duty. Accordingly I order that the existing hours of duty should continue.

As to overtime, I order that if any workman is required to work beyond the above hours of duty, he should be paid overtime wages at double the rate of his total emolument for the excess period.

Issue No. 2—Dearness allowance: Workmen are being paid Rs. 25 per month as dearness allowance. They demand that it should be raised to Rs. 32-8 per month. It appears from evidence that the dearness allowance was Rs. 15 per month prior to 1st October 1956. The Association raised it to Rs. 25 per month with effect from 1st October 1956. The Union has not shown any reason why the dearness allowance should again be increased so quickly. So I order that the existing dearness allowance will continue.

Issue No. 3—Compensatory holidays in lieu of Festival holidays: It is the case of both sides that the Association now grants two festival holidays in the year, viz., on the Vijaya Dasnami day and on the "Holi" day. The Union in its written statement demands six additional festival holidays, but this claim is not a subject-matter of the reference. So I reject the claim straightaway. As to the issue in question it is clear from evidence that the Association is liberal in granting leave to the workmen. So instead of ordering the Association to grant compensatory holidays in lieu of festival holidays, I order that the Association should pay the workmen 1½ days wages for work on any festival holiday in addition to wages for that day.

Issue No. 4—Gratuity: Justice demands that any good employer should make some arrangement for the provision of his employees in their old age. The Association has resisted the claim for gratuity on the ground that its financial position is very bad. It is admitted that its main source of income is the subscription from the bus owners. That source is obviously an elastic source. So the Association should be able to pay some gratuity to its workmen. I accordingly order that it should pay each workmen on his quitting service, gratuity at the rate of 15 days' pay for every year of service rendered, subject to a maximum of one year's pay.

Issue No. 5—Provident Fund: As I have ordered above that the Association should pay gratuity, it would be putting too great a strain on the financial resources of the Association, if I order it to introduce Provident Fund also. I therefore reject the demand of the Union for introduction of Provident Fund.

The above award will take effect in a month from the date of publication of the award in the "Calcutta Gazette".

AWARD

By Government order No. 3356-I.R./IR/7L-6 57, dated 11th August 1958, a dispute betwe Messrs. Naihati Jute Mills Company, Limited, a 78 of their workmen, was referred to this Tribu for decision. An award was passed by this Trib nal on 12th May 1959 which was published in t "Calcutta Gazette" of 4th June 1959 at page 21(Part I. During the pendency of this dispu Shri Gopinath Seal, the petitioner in the insta case, was dismissed from service. He has fil this application under section 33A of the Indu trial Disputes Act on 29th April 1959 allegi that he has been dismissed in contravention of t provision of section 33 of the Industrial Disput Act, and has claimed reinstatement and oth reliefs.

The case was fixed for hearing on 8th Augu 1959. The petitioner did not appear. So, it w adjourned to 5th September 1959. On that da also he did not appear, and so, the argument behalf of the Company was heard.

It is contended on behalf of the Company th the application under section 33A of the Act is n maintainable, because, the petitioner was not all concerned in the aforesaid dispute that h been referred to this Tribunal. The contenti must be upheld, as it appears from the list workers concerned in the dispute as published the "Calcutta Gazette" aforesaid that the pe tioner was not included therein. There is nothi on record to show that the petitioner was in a way concerned in the dispute aforesaid; so t question of the Company's contravening any the provisions of section 33 of the Act in dismissi the petitioner does not at all come in, and it held that the petitioner has no locus standi make a complaint under section 33A of the Ac and as such his application is rejected as n maintainable.

Government of West Bengal, Labour Department, by their order No. 5484-I.R./IR/11L-622/58, dated 24th December 1958, and subsequent corrigendum No. 1717-I.R./IR/11L-622/58, dated 26th April 1959, referred to the Second Labour Court, an industrial dispute between Messrs. Bansal & Co., and their workmen, represented by Burrabazar Jamadar Sangh, for adjudication.

Issue formulated in the order of reference is as follows:—

Whether the dismissal of Shri Mahadeo Prosad is justified? What relief is he entitled to?

The case of the Union is that Shri Mahadeo Prosad worked under Messrs. Bansal & Co., for about 10 years. He went on leave on 9th July 1958. He reported to the office of the Company on 9th September 1958, after expiry of the leave, but he was not allowed to join. He has since been unemployed.

The Company did not put in appearance in this case, though it received notice. So the case was taken up ex-parte.

The Union has examined two witnesses. It is clear from the evidence that the case of Shri Mahadeo Prosad was taken up by Burrabazar Jamadar Sangh which counts as its member the other employee of the Company in question. It is also clear from the evidence that Shri Mahadeo Prosad was virtually discharged without even any show of reason. So I at once hold that the dismissal of Shri Mahadeo Prosad is absolutely unjustified. I therefore order that he should be reinstated and should be paid full back wages from 9th September 1958 up to the date of reinstatement.

The above order shall take effect within 15 days from the date of publication of the award in the "Calcutta Gazette".

AWARD

By Government order No. 4672-I.R./IR/10L-6/58, dated the 8th November 1958, a dispute between Messrs. Philips (India) Ltd. (hereinafter referred to as the Company), and their workmen, represented by Philips Electrical Co. Workers' Union (hereinafter described as the Union), was referred to this Tribunal for adjudication. The only issue framed in this dispute was bonus for the year ending 31st December 1957.

On 8th September 1959, the parties have filed a memorandum of settlement together with a joint petition for passing a "no dispute" award, as the dispute has been amicably settled between them. The memorandum of settlement shows that the instant dispute, as well as part of a different dispute pending before this Tribunal, has been incorporated therein. The terms contained in the memorandum are so inter-woven that it is not possible to disentangle therefrom the agreed points relating to the instant dispute. So, the joint petition, dated 8th September 1959, and the memorandum of settlement are made Annexures A and B respectively to this award, and in terms thereof, it is awarded that there is no dispute pending between the aforesaid Company and its workmen, regarding bonus for the year 1957.

In the written statement the Mill stated that the petitioner was guilty of theft of certain machinery parts and on his pleading guilty to the charge he was dismissed. No evidence was given by the Mill

to prove the same. So the fact remains that the petitioners who was employed in the Mill, was not given any work from 1st August 1958. This means laying off as defined in section 2(kkk) of the Act. The question is whether this would mean an alteration in the conditions of service within the meaning of section 33(2)(a) of the Act. No Standing Orders were filed in this case either by the petitioner or by the mill concerned. Whatever that may be, 'lay-off' is a statutorily recognised thing and during the time of laying-off, relationship of master and servant remains in suspended condition. The conditions of service, are therefore, also suspended. Accordingly no question of alteration in the condition of service would arise. When in the present case there are no conditions of service, any statement that they have been altered cannot be accepted as correct. The new chapter VA inserted by the Act 43 of 1953 deals with the lay-off and retrenchment. When a workman is laid-off, he is to seek remedies by having recourse to the provisions of the Chapter VA of the Act. He cannot come under section 33A of the Act as laying off does not mean any alteration in the conditions of service or discharge or punishment within the meaning of section 33 of the Act. It is concluded that the petitioner has failed to establish that there was infringement of the provisions of section 33 of the Act. Consequently, the present case of Shri Atul Kumar Das under section 33A of the Act is liable to be dismissed and it is hereby dismissed.

This is my award.

W. BASU MAZOOMDER,
Judge, Fourth Industrial Tribunal.

The 7th September 1959.

S. C. MUKHERJEE, Asst. Secy.

(Case No. VIII-102/59.)

BEFORE THE FIRST INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri M. C. BANERJI, District Judge (Retd.), Judge, First Industrial Tribunal.

For the Union: None.

For the Company: Shri Sailesh Chandra Sen, Advocate.

AWARD

The Government of West Bengal, in the Department of Labour, by order No. 2393-I.R./IR/8L-12/59, dated 1st June 1959, referred, under sections 7A and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. Bharat Woollen Mills Ltd. (Works No. 2), 4 Shyamaprosad Mukherji Road, Belghuria, 24-Parganas, and eight of their workmen mentioned below represented by Bharat-Woollen Mill No. 2 Labour Union relating to the undermentioned issue to this Tribunal for adjudication.

Issue

Whether the retrenchment of the following workmen is justified? What relief, if any, are they entitled to?—

(1) Shri Jainath Singh, (2) Shri V. S. Mishra, (3) Shri K. N. Sarawat, (4) Shri Sohan Singh, (5) Shri Jielal Randive, (6) Shri G. N. Tandoon, (7) Shri B. D. Misra, (8) Shri A. N. Burman.

2. Notices were issued on the parties fixing 26th June 1959 for appearance and filing of written statement by the Union. Both the parties appeared on 26th June 1959, on which date, the Secretary of the Union filed a petition praying for two weeks' time to file written statement. The prayer of the Union was granted and the late for filing of written statement was fixed on 11th July 1959. On 11th July 1959 no one appeared for the Union. The case was adjourned to 18th July 1959 with the direction that if no written statement was filed by the Union on that date, the case would be heard in its absence. The Union did not appear on 18th July 1959. There were four other adjournments of the case and the Company filed written statement stating its case. The case was heard on 14th September 1959. The Union was absent all along and the case was heard in its absence.

3. The case of the Company in its written statement is that in February 1959, it retrenched 188 manual workmen in its different sections out of its total strength of 425 employees, that a dispute having arisen over the said termination of service, the matter was referred to this Tribunal for adjudication. The dispute ultimately was settled by compromise between the parties and an award was made in accordance with the terms of the settlement. It is stated that the men involved in the present reference are departmental Supervisors. Following the retrenchment of the 188 workmen referred to above and discontinuance of some of the shifts, the Company retrenched these men. It is prayed that the termination of service of the men concerned may be held as justified and a claim for relief in any shape may be rejected.

4. Evidence was adduced by the Company. Shri I. Solomon, Secretary to the Board of Directors, was examined for the Company as O.P.W. 1. The witness deposes that he knows the eight men, being (1) Shri Jainath Singh, (2) Shri V. S. Mishra, (3) Shri K. N. Sarawat, (4) Shri Sohan Singh, (5) Shri Jielal Randive, (6) Shri G. N. Tandoon, (7) Shri B. D. Misra, and (8) Shri A. N. Burman. These eight men are all Supervisors of Messrs. Bharat Woolloen Mills Ltd. (Works No. 2). He further states that sometime in February 1959, 188 manual workmen were retrenched, as they were found surplus to the Company's requirements. There was a reference made to this Tribunal and there was a compromise award over that matter. Some shifts had to be curtailed on account of retrenchment of 188 men and there was a surplusage of these 8 Supervisors, and they were retrenched on 9th April 1959, by the letters, Ext. A series. It is stated in Ext. A that under the altered circumstances following the retrenchment of a large number of workmen and discontinuance of some of the shifts, the Company had not got work for all the Supervisors and it had become necessary to retrench eight Supervisors. In the last paragraph of Ext. A, it is further stated that the workman would be paid all his legal dues, including a month's pay in lieu of notice, 15 days' wages for every completed year of service or any part thereof in excess of six months. The witness further states that 7 men out of these 8 men, except No. 5 Shri Jielal Randive, have accepted their payments of compensation in full satisfaction of all their claims,

and that Shri Jielal Randive has taken some advance and some articles and adjustments will have to be made in his case, which the Company is prepared to do as soon as he comes, and further that he has not come to the Company for any adjustment, although he was called. The witness also states that retrenchment of these men was justified, because they were found surplus to the Company's requirements on account of the retrenchment of the manual workers already made and reduction in shifts. The witness also brought with him vouchers showing payments to the seven workmen mentioned above.

5. On a careful consideration of the matter, it is decided that the retrenchment of the following eight workmen is justified for reasons advanced by the Company:—

(1) Shri Jainath Singh, (2) Shri V. S. Mishra, (3) Shri K. N. Sarawat, (4) Shri Sohan Singh, (5) Shri Jielal Randive, (6) Shri G. N. Tandoon, (7) Shri B. D. Misra, and (8) Shri A. N. Burman.

It also appears from Ext. A series that they have received their legal dues, including one month's pay in lieu of notice and 15 days' wages for every completed year of service, or any part thereof. It is awarded that these workmen are not entitled to any further relief. In regard to No. 5 in the list, Shri Jielal Randive, his case should be thoroughly gone into and any amount that may be found due to him after adjustment of his accounts should be made available to him and it is awarded accordingly.

Both parties filed written statements in their cases.

AWARD

In the written statement the Union's case is that the aforesaid Association which is situated at Jadavpur, employs about 200 workmen including Director, Professors, Registrar, Readers, Research Officers, Research Assistants, Office Superintendent, Workshop Superintendent, Accounts Officer, Librarian, Lecturers, Overseer, Laboratory Assistants, Laboratory Attendants, clerks (Junior and Senior), Mechanics (Junior and Senior), Assistant Accountant, Accountant, Mates, Bearers, Malis, Sweepers, Driver, Telephone Operator, Record clerk, etc., and that for all practical purposes it is a Government sponsored organisation and all its financial resources are derived from Government grants, barring some small public and simil other contributions, and in many matters the rul of the Calcutta University are followed as guidin principles. According to the Union, the presen dispute covers all employees of the Associatio below the rank of Research Officers and includ Office Superintendent, Workshop Superintenden Accounts Officer, Accountant, Assistant Accoun ant, Research Assistants, Librarian, Assistan Librarian, Clerks (Senior and Junior), Mech nics (Senior and Junior), Electrician, Oversee Laboratoy Attendant, Bearers, Sweepers, Mali Durwans, Telephone Operator, Record Cler Driver, etc. It is stated that in spite of the ver valuable services rendered by the employees, the pay scales and other conditions of services are poor and all attempts to revise the existing scales of pay etc. and improve other conditions of service in an amicable way have failed. There is another allega tion to the effect that Shri Panchanan Rai, wh was appointed by the Association as an Assistan Accountant, was illegally discharged. It is als said that the Association changed the workin hours to the detriment of the employees withou making any arrangement for overtime payment About the retiring benefits, it is stated that ther is no provision for gratuity, and about the retir ing age, it is said that while the Professor an Readers are to retire at the age of 60, the othe members of the staff will have to retire at the ag of 55, and this sort of discrimination is not at al equitable. The Union also demands that the ade quate provisions should be made for medical treat ment of the employees and their family members There is also a claim for gratuity by the Union a one of the retiring benefits.

In the written statement, the Association ha stated that it is a philanthropic and benevolen institution with the object of encouraging study of science with a view to its advancement and pro gress by original research and to apply the results of such research in service of humanity, and unlike other Trade and Industry it is not at all a profit-making institution, and is mainly and primarily run on grants from the Government of India and the State Government without which it cannot stand as private donations and subscriptions are negligible and the income of the Association by way of membership fees, sales of scientific journal and other publications, etc. is negligible, and the main part of the work of the Association is done by research scholars who are employed tempo rarily with fixed scholarships without any allow ances.

It is also stated that the Association being run by a class of sober men at the helm of affairs has always considered the grievances of employee and had revised pay-scales once in 1952-53 and recently in 1955-56 it suitably revised the pay structure and other amenities, and the Associa tion is, however, greatly handicapped in running the administration inasmuch as the resources are extremely limited and the sanction from the Gov ernment of India is to be obtained and further grant is also to be obtained before there is any likelihood of any extra expenses.

Regarding the revision of grades and pay-scales the Association has stated that there has been substantial revision of pay-scales which now com pare favourably with those in similar institutions.

Regarding leave and holidays, the Association has mentioned that the rules in relation thereto are more liberal than those in operation in similar institutions under the Government of India, and they were made by the Finance Committee which included a representative from the Government of India with knowledge of financial matters.

Regarding overtime payment, the Association's case is that when overtime work is demanded, employees are granted tiffin allowance if detained beyond office hours. Regarding medical facilities, it is stated that the Union's demand in this respect can only be made if pecuniary grant is sanctioned by the Government of India. About the retiring age, it is stated that the clerical staff shall retire on the completion of the 55th year of age. So far as the Union's claim for gratuity is concerned, the Association's case is that there is already a scheme of Provident Fund in force and the further claim of gratuity cannot be entertained in view of the present financial condition of the Association.

About the change of working hours, the Association's case is that there has been practically no change in the working hours, and only half-an-hour recess has been added.

Lastly, the Association has mentioned that Shri Panchanon Rai was a probationer and as his work was unsatisfactory, he could not be confirmed and his services were dispensed with. It is added that Shri Rai applied for the post of Assistant Accountant in the office of the Registrar of the Indian Association in response to the advertisement in the "Statesman", dated 20th June 1956, and he was appointed on probation and as per Regulations and Bye-Laws of the Association applicable to the employees, the period of probation was to be one year, after which he might be confirmed, if his work during the probationary period proved satisfactory. But the conduct of Shri Rai during the probationary period was not at all satisfactory, and he refused to carry out the work entrusted to him on several times and also even refused to carry out work in preparing some vouchers. For this he was warned but no improvement was seen in him. There were other latches on his part. Besides, he was noticed to be very slow in his work, and when the question of his confirmation came up, the Registrar of the Association reported that his work was unsatisfactory. The matter came up before the Council for consideration and an extension of the probationary period till 31st January 1958 was given to Shri Rai by a resolution, dated 27th September 1957, only to give another chance to improve himself. Thereafter, a second report was received from the Registrar relating to his work during the probationary period extended, and it was as adverse as before. The Council considered the report thus received and passed a resolution stating that he could not be confirmed and his services were dismissed.

Issue No. 1

In annexure A, Ext. 1, to the written statement, the Union has given the existing pay-scales regarding the various employees working under the Association. It is contended that the pay-scales of the employees are poor. The Union wants that the existing pay-scales should be revised in the way mentioned in annexure "C" (Ext. 9), to the written statement. Now the Association pleads inability to accede to the demand of the Union on the ground that its financial condition is very limited. At the outset, I must mention that the Association is mainly and primarily run on the grants of the Government of India and the State Government of West Bengal, and without the same it cannot stand. Of course, the Association gets private donation and subscriptions and they are negligible and it also get income out of sales of scientific journal and other publications, etc. and that amount is also negligible. From the statement of accounts (Ext. F), I find that the Association has got deficit to the extent of Rs. 81,438 for the current year, and further from Ext. C, it is seen that the Association had a deficit to the extent of Rs. 4,975.90 nP. in the previous year. The Association was asked by the Government of India in the current year to effect economy in the expenditure in order to balance the budget. Further the Association was advised to maintain its activities within the amount provided for within the sanctioned budget. The position is, accordingly, clear that unless money is obtained from the Government of India and the Government of West Bengal by way of grants, the Association cannot run its activities. What is found is that the Association is to make its budget and get it sanctioned by the Government of India. Further it is seen that in the current year the Association has a deficit of Rs. 81,438. So an immediate revision of the existing scales of pay is quite out of consideration. The Association is not altogether indifferent towards the demand of the Union as I find from Ext. K that it has passed a resolution to make a revised estimate for its employees of the Calcutta University. It is said from the Association that if a grant is obtained from the Government then the employees would be paid salaries in accordance with the scales of pay existing amongst the employees of the Calcutta University. In view of the same, I am unable to hold that the Association is not eager to improve the existing scales of pay of its employees. What is found is that the Association is taking action for moving the Government for a grant so that it can pay to its employees salaries according to the scales existing in the Calcutta University. The immediate revision of grades and scales of pay during the current year is not at all feasible. The audited accounts for the year 1957-58 were filed by the Association. I do not find anything wrong in the same. In that year also there was a deficit to the extent of Rs. 4,975.90 nP. It was pointed out by the Union that 40 per cent. of the total expenditure goes towards the pay, dearness pay, and dearness allowance, etc. of the Directors, Professors, Readers and Registrar, and 29 per cent. of the same goes towards the pay of scholars. Thus it was argued by the Union that it is a top heavy administration. So far as the Research Scholars are concerned, they are employed temporarily with fixed scholarships and the others (viz. Directors, Professors, etc.) work with the object of encouraging study of science by original research. They are eminent persons with high attainments and their salaries are not found to be in excess at all. The Association unlike other Trade and Industry is not at all a profit-making institution. It revised the pay-scales of employees in 1952-53 and also in 1955-56 and is further

willing to revise the existing scales of pay of the employees on further grant from the Government. Without such grant it cannot at once increase the existing scales of pay. The demand of the Union to have the scales of pay as existing amongst the employees of the Calcutta University cannot be satisfied at present for want of money. It appears that a sum of Rs. 15,000 to Rs. 16,000 will be necessary in each year if the demand of the Union is to be met with. It is recommended that the Association would take steps as early as possible to have necessary money so that it can satisfy the demand of the Union regarding the revision of the scales of pay with effect from the next financial year.

This issue is thus decided.

Issue No. 2

The Association has prescribed three kinds of vacation and holidays as follows:—

(i) Summer vacation—Not exceeding six weeks—from the middle of April to the middle of July.

(ii) Puja Holidays—Not exceeding four weeks.

(iii) Other Holidays—Number to be approved by the Council.

It is also laid down that all members of the staff excepting operative staff (i.e. all members attached to Workshop, Library, Overseer's Office, the Telephone Operator and the Driver, the Research Assistants, Laboratory Assistants, Attendants, Bearers and Peons) shall be entitled to the Puja Holidays not exceeding four weeks, and the operative staff shall be entitled to Puja Holidays not exceeding two weeks. It is also prescribed that the Darwans, Night Guards, Malis and Sweepers shall be required to remain on duty during the entire period of holidays, and all members of the Association other than the Darwans, Night Guards, Malis and Sweepers, shall be entitled to other holidays. The other provision is that when an employee drawing a salary below Rs. 300 is required to remain on duty on Puja and other holidays to which he is entitled, he shall earn compensation holiday for the actual number of holidays. There are provisions for earned leave, half-pay leave and casual leave. In this respect, the Association's rule is that non-vacation staff in permanent employ will earn 1/11th of the period spent on duty as the earned leave, and the total earned leave can accumulate up to 120 days along with commuted leave. It will not exceed 180 days. So far as the vacation staff is concerned the rule is otherwise. The Professors, the Associate Professors or Readers, Research Officers and Lecturers are treated as vacation staff, and the Director and the rest of the staff are treated as non-vacation staff.

On a perusal of the "Leave Rules" as contained in Ext. G, at pages 6 to 12, it will appear that the member of the staff of the following categories enjoys earned leave, half-pay leave, and casual leave:—

Category No. 1—Bearers, Peons, Darwans, Night Guards, Malis, Sweepers.

Category No. 2—Laboratory, Library, Office and other Attendants, Mates.

Category No. 3—Similar category of staff as may be determined by the Council from time to time.

The relevant rules are contained in paragraphs 33, 34, 35 and 36 of the said "Leave Rules". They were framed in the year 1956 by the Finance Committee of the Association and a Subject Committee which included a Representative from the Government of India with knowledge of financial matters, and they are in force with effect from 1st April 1956. In my consideration the "Leave Rules and the holidays" as prescribed are quite adequate. The Union's contention is that in framing the new Leave Rules, the Association did not consult with them and, as such, the whole thing was illegal. The whole question is whether the leave rules as framed by the Association is adequate or not. The only thing that is found is that Durwans, Malis, night-guards, Sweepers are to remain on duty during the entire period of holidays. They belong to essential service and they have been salaried accordingly. Regarding them, provisions have been made for other kinds of leave in paragraphs 33 to 36 of the "Leave Rules" as contained in Ext. G, and the same includes earned leave, half-pay leave and casual leave. In conclusion it is held that the "Leave Rules" as framed by the Association is quite satisfactory and adequate. I find no ground for interfering with the same. This issue is accordingly decided.

Issue No. 3

According to the Association, the employees are granted tiffin allowance when detained beyond office hours. Regarding the overtime-wages I direct that the allowance for overtime work should be 1½ times of the wages payable to the worker concerned.

Issue No. 4

The Association makes an annual provision of Rs. 5,000 for the free medical benefit of its employees. In view of the present financial position of the Association, it is not possible to increase the amount.

Issue Nos. 5 and 6

From Ext. D, it is found that for the Director, Professors, Associate Professors or Readers, the retiring age is 60, whereas for other members of the staff, it is 55. The Union's contention is that the age of superannuation should be fixed at 60 for all. It is argued that in an institution, like the present one, there should not be any discrimination regarding the retirement of age. It appears that this matter has not been rejected by the Association out of its consideration, for in the written statement, the Association has stated that a Sub-Committee has been appointed to look into this matter. When there is no provision for gratuity, I hold that the age of superannuation for the staff should be 60, provided that efficiency has not been impaired after the completion of 55 years of age. This benefit will not accrue to those who have already retired from service.

It is seen that there is a Provident Fund Scheme already in force, and the employees get the benefit of the same. Now, the question is whether a

ratuity Scheme should be introduced or not. In iew of the financial position of the Association, I nd that the formation of any Gratuity Scheme is ot feasible at all. The claim for the formation of Gratuity Scheme is, accordingly, rejected. These sues are, accordingly, answered.

ssue No. 7

According to the Association there is no change the working hours. It is stated that only half-n-hour has been introduced and, as such, there is o justification for any higher pay or revision of ages. The new working hours fixed by the ssociation are as follows (vide Ext. Annexure D" to the Company's written statement).

From Monday to Friday—Attendance at 10-30 a.m. Departure at 5-0 p.m. with a break of half-an-hour for lunch to be availed of between 1 p.m. and 2-30 p.m.

On Saturday—Attendance at 10-30 a.m. Departure at 2-0 p.m.

These revised working hours came into force om 1st November 1957.

The original working hours were as follows:—

On week-days—Attendance at 10-30 a.m. Departure at 4-30 p.m.

On Saturday—Attendance at 10-30 a.m. Departure at 2-0 p.m.

It is said by the Union that there was no fixed cess period within the aforesaid working hours at the employees used to take their tea or tiffin ithin the said hours. In my consideration there ould be recess period by half-an-hour, and this ould be between 2 and 2-30 p.m. No question enhancement of the working hours arises as the cess period is to be deducted. Further it is ted that even by the award of the Mercantile ribunal, the total working hours are 38 hours cluding recess. The working hours as revised the Association are not at all in excess of the tal working hours fixed by the Mercantile ribunal. So, no consideration arises for the pay-ent of any additional emolument in view of the vised working hours.

This issue is thus decided.

sue No. 8

According to the Association, Shri Rai was pointed as an Assistant Accountant on probation the office of the Registrar from September 5, 56, and his conduct during the probationary riod was unsatisfactory and ultimately he was scharged. It is seen that for the post of Assis-nt Accountant an advertisement was made in rious newspapers and Shri Rai offered himself a candidate for the post, and he got the appoint-ent. The relevant appointment letter issued by e Registrar of the Association is as follows:

ri Panchanan Rui, M.A.(Com.), 46 Adhar Chandra Das Lane, Calcutta-4.

Dear Sir,

With reference to your application, dated 4th July 1956, I have pleasure in informing you that you have been appointed Assistant Accountant to the Registrar's Office on a starting salary of Rs. 80 per mensem in the grade of Rs. 80—5—120 E.B.—8—200—10/2—220 plus usual dearness allowance.

Please note that in terms of our advertisement you shall be required to execute a fidelity guarantee bond of Rs. 1,000.

I shall be glad if you would kindly let me have your acceptance of the appointment within one week of receipt of this letter, informing me at the same time the earliest possible date on which you can join. I shall however appreciate it if you can join immediately.

The receipt of the letter may kindly be acknowledged.

Yours faithfully,
S. N. Sen,
Registrar."

On 27th September 1957 the Council of the Association passed a resolution as follows:—

"Resolved that

(d) No. 7, Shri Panchanan Rui be not confirmed, but the period of his probation be extended up to January 31, 1958, and that he be informed that his confirmation will depend upon the consideration of his service during the whole of his probationary period, that is to say, the period he had already served and the extension now granted to him."

The said resolution was communicated to Shri Rai by the Registrar of the Association by a letter, dated 28th September 1957, and in reply to that, Shri Rai sent the following letter:

"The Registrar,

Indian Association for the Cultivation of Science,
Jadavpur, Calcutta-32.

Dear Sir,

With reference to your letter No. 1.2/849, dated 28th September 1957 I like to draw your attention on your letter No. 1.201/521, dated 23rd August 1956 in which no mention of probation was made in appointing me as Assistant Accountant to your office on a starting salary of Rs. 80 per mensem in the grade of Rs. 80—5—120—E.B.—8—200—10/2—220 plus usual dearness allowance. I think that the Council has adopted the resolution regarding me without referring to above said appointment letter.

Further, it will not be out of place to mention that one increment of Rs. 5 per mensem has become due on 5th September 1957. However, I have drawn my salary for the month of September 1957 in previous scale as the same was paid in advance before Puja pending all technical matters attached thereto.

I hope my due of Rs. 5 only in respect of the said increment with effect from 5th September

1957 will be paid with my increased salary for the month of October 1957 and oblige.

46, Adhar Chandra Das Lane, Calcutta-4.
Dated, the 18th October 1957.

Yours faithfully,
Panchanan Rui."

Lastly, the Council of the Association passed the following resolution regarding Shri Rai on 22nd December 1957:—

"19(c) Resolved with respect to No. (ii) that Shri Panchanan Rui be not confirmed and his services be dispensed with after the expiry of the probationary period on January 31, 1958. Resolved further that the resolution of the Council be communicated to him."

This resolution was communicated to Shri Rai by the Registrar by a letter, dated 26th December 1957. The position is clear that the services of Shri Rai were dispensed with by the Association on the expiry of January 1958.

Now, the contention of the Union is that Shri Rai was not a probationer at all and, as such no question of his confirmation was to be considered by the Council. It is argued that Shri Rai was a permanent employee from the very day when he joined the service as an Assistant Accountant in the office of the Registrar. Of course, in the appointment letter it was not stated that Shri Rai would have to be on probation for a certain period. In the advertisement for the post no such thing was specifically mentioned. It was mentioned in the advertisement that the selected candidate would be required to execute a Fidelity Guarantee Bond of Rs. 1,000. Further, it was mentioned that the post will carry dearness allowance and Provident Fund Benefits on confirmation as admissible in the Association. In response to this advertisement, Shri Rai offered himself as the candidate for the post of Assistant Accountant on 4th July 1956, and he was thereupon appointed as the Assistant Accountant in the office of the Registrar, on a starting salary of Rs. 80 per month, in the grade of Rs. 80—5—120—E.B.—8—200—10/2—220 plus usual dearness allowance. One of the terms of the advertisement is that the selected candidate will be entitled to get the benefit of the Provident Fund Scheme only on confirmation. This will obviously mean that the appointment would be made on probationary basis. In this connection I would refer to the regulation No. 34(b) of the Association where it is laid down that appointments shall ordinarily be made on a probationary basis of one year, after which the appointment may be made permanent. Shri Rai did not get the benefit of the Provident Fund Scheme of the Association during the time of his service. That he was acting as a probationary Assistant Accountant cannot be doubted in the least. There is nothing in the appointment letter to indicate that Shri Rai was permanently appointed to the post of the Assistant Accountant in the Registrar Office. So, the contention of the Union that Shri Rai was a permanent officer from the very day when he joined the post of the Assistant Accountant in the Registrar Officer cannot be given any value. A probationer is not in the same position as others in the service as "probation means testing of a person's capacity, conduct character specially before he is admitted to a regular employment. It is open to the employer to discharge him if his work is not found to be satisfactory. Here, Shri Rai was working under the Registrar of the Association, and when the question of his confirmation as the Assistant Accountant came up for consideration, the Registrar wrote the following letter to the Director of the Association:—

"1.2 September 26, 1957

To the Director.

Subject: Confirmation of Shri P. Rui, Assistant Accountant.

Dear Sir,

Shri Panchanan Rui joined the Association as an Assistant Accountant with effect from 5th September 1956. About his work I am to report as follows:—

(1) On two occasions Shri Rui refused to carry out the work given to him. On March 30, 1957 I sent him a number of orders for preparation of vouchers, etc., which he refused to accept, stating that the Accounts Officer was sitting idle and that he would not be able to attend to the orders. This was recorded in the conduct book in his presence and the matter reported to you. In August 1957 he again refused to carry out another order to prepare the receipt of a party, giving details of bill No., etc. The preparation of receipt is a part of his normal duty. This was reported to you on 31st August 1957 and on your advice a warning was given to him.

(2) There have been cases of refusal by him to accept bills, orders, etc., for his action as per his duties (Overseer's note, dated 9th September 1957).

(3) I find him very slow in the discharge of his duties leading to delays and frequent complaints.

His work has therefore been found unsatisfactory and I regret my inability to recommend him for confirmation in the post of Assistant Accountant.

Yours faithfully,
S. N. Sen, Registrar."

The matter was considered by the Council on 27th September 1957, and it extended the period of Shri Rai's probation up to January 1958, and Shri Rai was informed that his confirmation would depend upon a consideration of his service during the whole of his probationary period, that is to say the period he had already served and the extension granted to him. Again on 21st December 1957 the

Registrar sent the following letter to the Director of the Association:

"1.2 December 21, 1957.

The Director, Indian Association for the Cultivation of Science.

Subject: Confirmation of Shri P. Rui, Assistant Accountant

Sir,

With reference to above I have reported that since I last submitted my note, dated 26th September 1957 to you, Shri Rui has not given evidence of satisfactory work in the discharge of his duties. As before, I found him very slow in his work. As for instance, cheques received by the Association were not regularly and promptly deposited to the bank, to which his attention was drawn under this office Memo. No. 1.207/989, dated 12th November 1957. Furthermore, he did not hand over charge before he started absenting without receiving prior sanction of leave. His attention was drawn to the matter under this office letter No. 1.2/1079, dated 26th November 1957 whereupon he saw me one day and handed over to me the key of the almirah. He was requested to let me have pending bills, orders, etc., so that work in respect of them may continue in his absence. He did not comply, saying that everything was in the almirah. He also did not care to clarify the position about a few misplaced vouchers he had dealt with.

In the circumstances I again very much regret my inability to recommend Shri Rui for confirmation in the post of Assistant Accountant.

Yours faithfully,
S. N. Sen, Registrar."

There is the fact that on 9th September 1957 an Overseer of the Association made a written complaint to the Registrar about the conduct of Shri Rai. That letter is Ext. I, and in that letter it was stated that the Overseer, Shri B. K. Mookherjee, placed as usual four passed bills to Shri Rai, who, however, did not accept them. The Registrar brought this matter to the notice of Shri Rai by a letter, Ext. H, dated 10th September 1957, and asked him to accept the bills for urgent action. From Ext. E, it would appear that on two occasions Shri Rai refused to carry out the work given to him by the Registrar, and on 30th March 1957, he also refused to accept the Registrar's order for preparation of vouchers, etc. and this was recorded in his conduct book in his presence. Further, in August 1957, he again refused to carry out work regarding preparation of a bill of a party and this was reported to the Director and upon the Director's order a warning was given to Shri Rai. The Registrar found him very slow in discharge of his duties leading to delays and frequent complaints, and he was unable to recommend him for confirmation in the post of Assistant Accountant. The Council took a lenient view about the matter and gave a chance to Shri Rai for improvement by extending the probationary period up to January 1958. Subsequently, the Registrar reported to the Director that Shri Rai had not given evidence of satisfactory work in the discharge of his duties. He stated that the cheques received by Shri Rai were not promptly deposited to the bank, and Shri Rai absented himself without previous sanction of leave. When he was asked to hand over charge of his office by the Registrar, he made over the key of the Almirah stating that all papers were inside the Almirah, and he did not care to clarify the position about a few misplaced vouchers which he dealt with. Shri Rai did not come to say on oath that what was reported by the Registrar to the Director about him was all untrue. I must therefore hold that the Registrar's report against him is quite correct, and the Council were justified in acting upon the same and in discharging Shri Rai from the service. The Union's contention is that Shri Rai was neither challenged nor given any opportunity to say his say. But the fact remains that the first resolution of the Council, dated 27th September 1957 was brought to his notice and he was informed that his confirmation would depend upon the consideration of his service during the whole of his probationary period, which was extended up to January 1958. After receiving this letter, Shri Rai did not make any protest. His refusal to accept the orders for preparation of vouchers from the Registrar was recorded in the conduct book in his presence (vide Ext. E). There was no challenge to the same by Shri Rai. It cannot, therefore, be held that Shri Rai did not know what things were against him. When the resolution of the Council, dated 27th September 1957, was forwarded to Shri Rai, a letter was written by him to the Registrar on 18th October 1957 stating that as there was no mention of probation in the appointment letter, he should have been given the usual increment in his pay according to scale. It is a case where on account of unsatisfactory work of a probationary officer, a discharge order was made by the competent authority, the probationer knew all about the same and never raised any protest. Under the circumstances no question would arise that he had no opportunity to say his say. In my finding there was no violation of the rules of the natural justice by the Association in discharging Shri Rai from the service. As he was a probationer, the employer had the right to discharge him on the ground of unsatisfactory work.

The Union contended that after the lapse of one year, the Council had no right to discharge Shri Rai from his service. I am unable to think so. The rule is that appointment shall ordinarily be made on the probationary basis of one year after which the appointment may be made permanent. Here, in the present case, Shri Rai joined his service as the Assistant Accountant on 5th September 1956. This would show that he passed one year's service on 5th September 1957, and the Council extended the period of his probation up to January 31, 1958, by a resolution, dated 27th September 1957. The question is whether this resolution was valid or not. The Union's contention is that after the expiry of probationary period of one year the Council had no jurisdiction to extend the period of probation. This cannot be accepted as correct. As the rule, already mentioned, would indicate that ordinarily the period of probation would be one year; so in special cases it can be extended. The Council had the authority

to extend the period of probation. On account of the resolution of the Council, dated 27th September 1957, the probationary period of Shri Rai got extended up to 31st January 1958, with effect from 5th September 1957. He could not therefore claim to be made permanent automatically on the expiry of one year from 5th September 1956, when he joined the Association as Assistant Accountant. The aforesaid contention of the Union that the Association had no power to extend the probationary period and Shri Rai to be taken as a confirmed officer cannot be accepted as correct. My attention was drawn to the case reported in L.L.J., Vol. I, 1957, page 412, where it has been laid down that an employer cannot be permitted to keep the probationer for a protracted period in a state of uncertainty as to his position, and after the expiry of a considerable period the court may properly consider whether having regard to all the facts, the inference should be drawn that the probationer has been confirmed. The facts of the present case are quite different from the facts of the aforesaid case. Here, the petitioner was not kept in a state of uncertainty as to his position, the authority took up the question of the confirmation of the petitioner shortly after the expiry of one year and then it extended the period of probation in order to give him a chance for improve him and when after the expiry of the period of probation it was found that the work of the probationer (i.e., Shri Rai) was not satisfactory and he was not fit for confirmation, the order of discharge was made. It cannot, therefore, be inferred that the probationer in question was confirmed. After considering the materials on record, I find that Shri Rai was not taking interest in the work entrusted to him and further he refused to do work which formed part of his duty. The full details thereof appear from the Registrar's report to the Director on 26th September 1957 and 21st December 1957 and also from the Registrar's letter to Shri Rai, dated 10th September 1957. In view of the same, the Council was justified in not confirming Shri Rai in the post of the Assistant Accountant. It does not appear to me that the authority discharged him from any vindictive motive. The contention of the Union that Shri Rai was not taken in good grace by the employer because of his election as a member of the Executive Committee of the Union is not correct. The Union further contended that Shri Rai was not given any increment after one year of his service although the authority in other cases allowed such increment. No proof regarding the same was given by the Union. Further, no question regarding the grant of an annual increment would arise as Shri Rai was only a probationer. I do not find any good materials to show that Shri Rai was discharged by the Council out of any ulteriar motive. The question of confirmation of Shri Rai came before the Council consisting of sober minded people with high educational attainments. The very fact that the Council extended the period of probation in case of Shri Rai would show that it acted very fairly. As Shri Rai failed to be of the requisite standard, so the Council had to discharge him. There is no room for thinking that Shri Rai was discharged on account of his union-activities. The order of discharge is found to be *bona fide*. I find no good grounds for interference. It is concluded that the discharge of Shri Rai was justified and he is not entitled to get any reliefs.

This is my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Express Dairy Company Ltd., 198 Bhupen Roy Road, Behala, Calcutta-34, and their workmen, represented by Express Dairy Mazdoor Panchayat, 35B Wellington Street, Calcutta. (Case No. VIII-C-125 of 1958.)

Shri HEM RANJAN DEB, Presiding Officer, Second Labour Court.

Appearances

For the Company: Shri S. K. Bhattacharjee, President of the West Bengal Commercial and Manufacturers' Association with Miss A. Bhattacharyya.

For the workmen: Shri Sankar Goala.

Acting under section 10 of the Industrial Disputes Act, Government of West Bengal, Labour Department, by their Order No. 2324I.R./IR/11L-637/57, dated 7th June 1958, and subsequent addendum No. 4141I.R./IR/11L-476/58, dated the 29th September 1958, referred to the Second Labour Court, an industrial dispute between Messrs. Express Dairy Company Ltd., and their workmen for adjudication of the matters stated in the issue.

Issue

1. Whether the dismissal of the following workmen is justified? What relief are they entitled to?

(1) Ram Provash, (2) Sukhnandan, (3) Lachmi, (4) Lalji, (5) Barma Deo, (6) Jailal Roy, (7) Aaud Roy, (8) Sankar, (9) Pujan Goala.

The case of the Union, briefly stated, is as follows:—

Messrs. Express Dairy Company Limited is a public utility company employing about 100 workers. For collective bargaining workers formed a Union under the name Express Dairy Mazdur Panchayat. The Panchayat submitted a charter of demands to the Company by a letter dated 28th August 1957 and solicited the intervention of the Labour Directorate, West Bengal, for settlement of the dispute. While conciliation proceedings in respect of the above dispute were pending, the Company illegally dismissed Sarbasree Sankar, Barma Deo and another worker. On 29th November 1957, a deputation consisting of some workmen sought interview with the Director of the Company to impress upon him the unjustifiability of the act of the Company in dismissing the above three workmen. On 30th November 1957, the Company issued charge-sheet upon Sarbasree Ram Provash Sukhnandan, Lachmi, Lalji, Jailal Roy, Aaud Roy and Pujan Goala, on the allegations that they struck work, organised an illegal strike, caused obstruction to loyal workers in their work and indulged in other acts of insubordination. Then on 11th December 1957, the Company issued another charge-sheet upon the workmen alleging that they adopted go-slow tactics and brought down production of milk. The workmen gave their explanations to the charges brought against them, completely refuting the above charges. Then on 16th December 1957, the Company most arbitrarily dismissed Sarbasree Ram Provash Sukhnandan, Lachmi, Lalji, Jailal Roy, Aaud Roy and Pujan Goala. The Union further contends that the act of the Company in dismissing all these workmen has been unjust and prays for their reinstatement and payment of all back wages and allowances.

The case of the Company is as follows:—

Shri Sankar Goala violated the repeated orders of the Company as regards the work allotted to him and was therefore guilty of insubordination. Shri Barma Deo indulged in riotous and disorderly conduct inside the premises of the Company. The other workmen mentioned in the order of reference struck work, organised an illegal strike, stopped distribution of milk and indulged in other acts of insubordination on 29th November 1957. They also adopted go-slow tactics and brought down production of milk. Charge-sheets containing the respective charges against the workmen were drawn up and served upon them. They gave explanations and enquiries were held. They did not attend the enquiries though they were asked to do so. As a result of the enquiries all the workmen mentioned in the order of reference were found guilty of the charges brought against them and they were accordingly dismissed.

At the out-set the Company raised an objection that the present dispute was not an industrial dispute. The Company bases its objection on the ground that Express Dairy Mazdur Panchayat at the instance of which the present reference has been made lost its registration at the time the case was taken up for hearing. It was found on the day the case was taken up for hearing that the registration of the trade Union was cancelled. So under section 36 of the Industrial Disputes Act, I did not allow the Union to represent the workmen at the hearing of the case. But the cancellation of the trade Union at the hearing of the case does not show that the Union did not espouse the cause of the dismissed workmen. The question whether the case of the dismissed workmen was taken up by a trade Union is not the technical question of whether its registration was valid on the date of hearing of the case, but the factual question whether the Union represented the workmen at the time the dispute arose. At the time of hearing the Company has filed an affidavit supported by a petition alleged to be of that of some workmen stating that most of the workmen do not espouse the cause of the dismissed workmen. But these papers filed by the Company have not been put to the test of cross-examination. On the other hand, the workers have led evidence to the effect that the Union has taken up their cause. So on the basis of the Company's affidavit and the above petition, it cannot be held that the case of the dismissed workmen was not espoused by the Union. So I hold that the present dispute is an industrial dispute.

As regards merits of the case, some workers including some of the dismissed workmen have stated that they are not guilty of the respective charges brought against them. Their cross-examination shows that they have not spoken the entire truth. The Company has, on the other hand, adduced both oral and documentary evidence to show that the charges brought against the workmen have been found to be true. I have persued the proceedings of the enquiries held regarding the charges brought against the workmen. The enquiries have been fair and I have no reason to interfere. So I hold that the dismissal of the workmen mentioned in the order of reference is justified. So they are not entitled to any relief.

Taken at my dictation and corrected by me.

Alexandra Printing Works, Haripal Lane, Calcutta-6, and their workmen represented by Press Employees' Association, 249B Bow Bazar Street, Calcutta-12, regarding the issues mentioned in the said order being matters specified in the second and the third Schedules to the Industrial Disputes Act, 1947 (XIV of 1947), was referred for adjudication to the Third Industrial Tribunal;

ANNEXURE

In the matter of an industrial dispute between Messrs. Alexandra Printing Works, Haripal Lane, Calcutta-6, and their workmen represented by Press Employees' Association, 249B Bowbazar Street, Calcutta-12. (Case No. VIII—222 of 1958.)

BEFORE THE THIRD INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri S. R. GHOSH, Judge, Third Industrial Tribunal.

For the Union: Shri Biswanath Ash, Vice-President, Press Employees' Association.

For the Company: Shri Sailesh Bhattacharjee of the Association of Manufacturers, Commercial and Traders.

By order No. 4695-I.R./IR/13L-35/58, dated the 11th November 1958, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. Alexandra Printing Works, Haripal Lane, Calcutta-6, and their workmen represented by Press Employees' Association, 249B Bowbazar Street, Calcutta-12, regarding the matters specified in the schedule, to the Third Industrial Tribunal constituted under section 7A of the Industrial Disputes Act, 1947, by notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957, for adjudication.

Issues

(1) Fixation of grades and scales of pay.

(2) Dearness allowance.

(3) Leave and Holidays.

(4) Probationary period.

(5) Bonus for 1954-55 and 1955-56.

(6) Whether the dismissal of Shri J. C. Das is justified? To what relief by way of reinstatement and/or compensation is he entitled?

The reference was received by this tribunal on 17th November 1958. Usual notices were served upon the parties. On 15th December 1958 the Union, namely, the Press Employees' Association representing the workmen of Messrs. Alexandra Printing Works (hereinafter to be described as the Company) filed its written statement. On 15th January 1959 the Company filed its written statement. After pleadings were completed, the reference was set down for hearing on 17th September 1959 after one adjournment. On 17th September 1959 the hearing was completed, arguments were heard and award was reserved.

AWARD

Issue No. 6: I take up issue No. 6 first. This issue relates to the alleged dismissal of Shri J. C. Das. According to the written statement of the union, paragraph 11(5) Shri J. C. Das was a machineman of the Company and had put in continuous service for over 13 years and was dismissed by the Company arbitrarily on 1st September 1958. The Union alleges that the dismissal of this workman was unjustified and prays that he should be reinstated with compensation. The Company's reply is that Shri J. C. Das only joined the management in or about 1954 and was suffering from senile decay due to his old age, that on August 29, 1958, he verbally requested the management to pay off all his dues and he left his job of his own accord after receiving all his dues in full and final settlement of all his claim in September 1958. At the time of hearing of the reference no evidence was adduced regarding alleged unjustified dismissal of Shri J. C. Das. Shri J. C. Das and did not come before the Tribunal to pledge his oath. The Union, in fact, did not press this issue No. 6 at the time of hearing. Shri J. C. Das was not examined. In the circumstances, the alleged dismissal of Shri J. C. Das by the Company is not proved and, therefore, Shri J. C. Das is not entitled to get any of the reliefs claimed as per issue No. 6. Issue No. 6 is disposed of accordingly.

Issue No. 5: This issue relates to claim of bonus for 1954-55 and 1955-56. In its written statement the union does not make any claim for bonus for these two years in accordance with issue No. 5. On behalf of the Company it is shown that for last few years trading results are unfavourable and there was no available surplus for grant of bonus to its workmen for the years 1954-55 and 1955-56.

Balance sheets of the Company (Exts. D series) and the Income-tax Assessment orders (Ext. E series) do not reveal on proper scrutiny any available surplus for granting any bonus to the workmen of the Company in respect of the years 1954-55 and 1955-56. It is very fairly conceded on behalf of the Union that the Company's papers, if believed, would not show any available surplus so as to justify grant of bonus to the workmen for the years under claim. No computations have been filed by any of the parties to work out available surplus on the basis of the balance sheets evidently because the parties do not differ in the matter of evidence that there is no available surplus for bonus for the years 1954-55 and 1955-56. From the materials before me I find that the claim for bonus is not seriously pressed by the Union and is not justified in view of the non-availability of any surplus for distribution of bonus to the workmen for the 2 years under claim. The workmen are, therefore, not entitled to any bonus as per issue No. 5.

Issue No. 4: This relates to probationary period. The Union's grievance is that the workmen of the Company are arbitrarily kept on as probationers for more than a year and its claim is that such probationers should be deemed to be confirmed as permanent hands on completion of one year's service, i.e., the probationary period for every worker should not exceed one completed year. The Company in its written statement meets this demand by saying that the workmen on their joining service are kept as probationers only for a period of 12 months according to the nature of the job and on successful completion of the said period, their services are made permanent if found otherwise suitable. It is the case of the Company that this is the principle followed by all concerns in the same line of business. It is thus clear that there is no dispute on this point. On the other hand, both parties agree that the period of probation should be one completed year. I, therefore, fix the period of probation for every worker as one completed year of 12 months. Every workman who will complete 12 months' service will be eligible for being made permanent and shall be made permanent if not otherwise deemed unsuitable. Thus all the workmen in the employ of the Company who have put in more than one year's service shall be deemed to be permanent with retrospective effect from the date of completion of full 12 months' service whatever that date may be.

Issue No. 3: Leave and holidays.

This issue relates to leave and holidays. The claim of the Union in this respect is as follows:—

(1) Privilege leave 15 days in a year.

(2) Casual leave 7 days in a year.

(3) Medical leave 10 days in a year—all on full pay and further.

(4) Festival holidays on full pay 10 days in a year as per paragraph 11(3) of its written statement. To this the answer of the Company is that the workmen of this concern enjoy 21 days leave and holidays with full pay in the year, namely, 13 days' earned leave and 8 days' festival holidays. But at the time of hearing the Company agreed to grant the leave and holidays as claimed by the Union. Under the Omnibus Award with regard to printing presses in Calcutta and Howrah published in the "Calcutta Gazette", dated 11th May 1948, under the Government of West Bengal, Labour Department, order No. 1487 Labour, dated 11th May 1948, as also under the subsequent Omnibus Award published in the "Calcutta Gazette" on 1st February 1951 the workmen of the printing presses concerned have been granted 15 days' privilege leave, 7 days' casual leave, 10 days' medical leave and 10 days' gazetted holidays on full pay. In the circumstances I lay down the following rules for leave and holidays:—

(a) Privilege leave for 15 days in the year on full pay.

(b) Casual leave for 7 days in the year (non-cumulative) on full pay.

(c) Medical leave for 10 days in the year on full pay on genuine medical grounds only on production of certificates from registered Medical Officers.

(d) Festival holidays for 10 days in the year on full pay as festival holidays for 8 days are now being allowed by the Company to the workmen concerned.

Issue No. 3 is accordingly disposed of.

Issue No. 2—Dearness Allowance: It is an admitted fact that Messrs. Alexandra Printing Works is a small printing concern with five employees working at present. Three of them are compositors and 2 of them are machinemen. They are paid monthly wages inclusive of dearness allowance. It is further admitted that Company pays consolidated wages to its workmen and no separate dearness allowance is paid to its workmen. This will appear from the evidence, oral and documentary, adduced in this case.

The case of the Union is that dearness allowance should be paid to the workmen at the rate of Rs. 35 per month with effect from 24th August 1957 and that the workmen should be paid arrears of dearness allowance at the rate of Rs. 28 per month with retrospective effect from 24th November 1954 as per Supreme Court decision. It is not disputed that in the printing presses award of 1948, the dearness allowance which was allowed to the workmen of the printing presses was Rs. 22 per month and it was enhanced to Rs. 28 per month by the Labour Appellate Tribunal with effect from 1st April 1951 by its decision, dated 23rd August 1951, and this decision has not been disturbed by the Hon'ble Supreme Court. Therefore, in all fairness the workmen of the present concern are entitled to get dearness allowance at the rate of Rs. 28 per month. In the present Company the dearness allowance is not separately paid to its workers but it is consolidated with the basic salary. So I fix the dearness allowance at the rate of Rs. 28 per month for each of the workmen of this concern separately and the basic salary of the workmen will be what would remain after deducting Rs. 28 as dearness allowance from their total emoluments. The basic salary would be fixed according to the directions to be given in connection with issue No. 1. So, the result is that dearness allowance for each of the workmen

of this Company is fixed at the rate of Rs. 28 per month with effect from 1st of October 1959. The dearness allowance shall be distinct and separate from the basic salary to be fixed hereinafter in connection with issue No. 1.

Issue No. 1: Fixation of grades and scales of pay.

Next I come to issue No. 1—the remaining issue. It relates to fixation of grades and scales of pay. It is not disputed that in the present Company there are only two classes of workmen working on monthly wages, namely, compositors and machinemen. As I have already stated, out of the total workmen of 5, 3 are compositors and 2 are machinemen. It is in evidence that the work of the compositors is hand-composing and that these compositors do not do such work as tabulation, bank cheque printing, printing of advertisement, page make-up, ranging and justifying the lines as per Ext. C. Therefore, the grade and scales in which these compositors could be fitted in, would have been the grade of junior compositor with scale of pay from Rs. 35 to Rs. 50 per month as fixed by the printing Award of 1951. It is not disputed either that the machinemen of the present Company are of the same type as the letter press machinemen of the same award of 1951 with scale of pay from Rs. 45 to Rs. 100 per month. Union reiterates its demand that the scales of pay of the employees should be revised according to 1951 Printing Press Award for West Bengal as referred to above. According to the said award the junior compositors have been given a grade with an incremental scale of pay from Rs. 35 to Rs. 50 as follows: Rs. 35—2/2—45- E.B. -1/2—50, while the machinemen have been given the grade with scale of Rs. 45—6/2—75—E.B.—5/2—100. The contention of the Company is that the introduction of grades and scales of pay is not possible for a small printing concern like the present one having a strength of only 5 employees at present. Their further contention is that the total emoluments paid to the workmen are not low as alleged, rather it is much higher than other printing concerns and that the financial position of the Company is not such as to introduce the grades and scales of pay of the junior compositors and machinemen as provided in the Omnibus Award of 1951.

I have already referred to the financial position of the present Company. It is a small concern only with five employees and according to P.W. 1 Shri Sripati Samanta, the compositor, the business of the Company has neither increased nor decreased. The balance sheet and the income-tax assessment records already referred to, would clearly go to show that the trading results of the Company are not at all favourable. The evidence of the ex-Manager Shri Kanai Chandra Chatterji (D.W. 1) is that during the last five years the volume of business of the Company has been gradually decreasing and the Company cannot compete with other presses and that its business position is very dull. So, if the scales of pay as laid down in the Award of 1951 are introduced at present, it will be next to impossible for the Company to shoulder the additional financial liabilities. The recurring expenses would be too much for the Company to bear. At the same time it must not be forgotten that the Company is bound to pay the minimum basic salary fixed in the Omnibus Award of 1951 for the junior compositors and the machinemen. In the present case, therefore, each of the compositors must not get less than Rs. 35 as basic salary and less than Rs. 28 as dearness allowance. The basic salary is to be fixed after deducting the dearness allowance of Rs. 28 from their total monthly emoluments. Those of the compositors who are getting more than Rs. 35 as basic salary excluding the dearness allowance of Rs. 28 per month as now fixed, will continue to earn the same. None of the machinemen should be paid less than Rs. 45 per month as the basic minimum salary excluding the dearness allowance of Rs. 28 per month as now fixed. Those who are getting more than Rs. 45 as basic salary excluding the dearness allowance of Rs. 28 per month will continue to earn the same and those who are getting less than Rs. 45 as basic salary must be pulled up to the basic salary of Rs. 45 per month with effect from 1st October 1959. Thus the minimum basic salary of the compositors is fixed at Rs. 35 per month and dearness allowance at Rs. 28 per month and minimum salary of machinemen is fixed at Rs. 45 per month and dearness allowance at Rs. 28 per month. Those who are getting more than the minimum basic salary so fixed will continue to get the same and those who are getting less than the minimum basic salary must be pulled up to the minimum basic salary with effect from 1st October 1958.

I cannot give any time-scale to the compositors and machinemen in the employ of the present Company on the ground of financial difficulties of the Company. Issue No. 1 is accordingly disposed of.

This is my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Angus Jute Works, P. O. Angus, district Hooghly, and two of their workmen mentioned in the order of reference, represented by National Union of Jute Workers, Ferry Ghat Street, Telinipara, district Hooghly. (Case No. VIII—95/59.)

BEFORE THE FIRST INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri M. C. BANERJI, District Judge (Retd.), Judge, First Industrial Tribunal.

For the Union: None.

For the Employers: Shri R. L. Moitra, Deputy Labour Adviser of I. J. M. A.

AWARD

1. The Government of West Bengal, in the Department of Labour, by order No. 2073-I.R./IR/71L-10/59, dated 14th May 1959, referred, under sections 7A and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. Angus Jute Works, P. O. Angus, district Hooghly, and two of their workmen, being Shrimati Bayam and Md. Ismail Hossain, represented by National Union of Jute Workers, Ferry Ghat Street, Telinipara, district Hooghly, relating to the undermentioned issues to this Tribunal for adjudication.

Issues.

(1) Is the retrenchment of Shrimati Bayam justified? To what relief, if any, is she entitled?

(2) Is Md. Ismail Hossain entitled to any sick leave benefit? If so, what?

2. Notices were issued on both the Union and Company fixing 9th June 1959 for appearance and filing of written statement by the Union, on which date the Secretary of the Union appeared and filed a petition praying for one month's time to file the Union's written statement. The Union was directed to file its written statement on 24th June 1959, on which date none appeared for the Union and no written statement was filed by them, and the time for filing of written statement by the Union was extended up to 1st July 1959. On this date also, none appeared and no written statement was filed by the Union, and it was ordered that the Union would not be permitted to file any written statement in the proceeding, and the Company was directed to file their written statement, which they did on 1st September 1959, and 17th September 1959 was fixed for the hearing of this case. It may be mentioned here that between 24th June 1959 and 17th September 1959, the Union did not put in any appearance on as many as six different dates.

3. The Company, in its written statement, states that the reference of these issues to this Tribunal for adjudication is bad in law and should be rejected, as the dispute involves only two workmen, and there is no apprehension of industrial unrest. In regard to Shrimati Bayam, the Company states that Shrimati Bayam had been working in Preparing Department since 1923. She voluntarily resigned in presence of her Departmental Works Committee Member, when her request for the payment of gratuity for the period covered by the Provident Fund, not exceeding 30 years in all, was accepted by the Management. It is stated that she had lifted her dues on 1st May 1959, and the allegation that she was put off forcibly and retrenched by the Management is denied. Regarding Md. Ismail Hossain, the Company states that he is a permanent Weaver of the Mill. The worker was granted leave, which he overstayed by four weeks for reasons of his alleged illness. He applied for extension of leave twice, each time for a fortnight in succession with a medical certificate, and that the extension of leave applied for was granted to him, but the same was not treated as sick leave by the Mill Medical Officer, as the medical certificates were not approved by the Mill Medical Officer. Md. Ismail Hossain did not report to the Mill Medical Officer before resuming his work, even though he was instructed to do so by the Labour Officer. It is prayed that an award may be made in favour of the employers in the light of the facts stated above.

Decisions

4. The case was finally heard on 17th September 1959 in the absence of the Company. O. P.W. 1 Shri G. P. Sehgal, Personnel Officer of Messrs. Thomas Duff, O. P. W. 2 Shri Janardan Mistri, a Member of the Works Committee, and O. P. W. 3 Sisir Kumar Sen, Senior Labour Officer of the Company, were examined for the Company, and Ext. A and A(1) were proved for the Company

Issue No. 1: Is the retrenchment of Shrimati Bayam justified? To what relief, if any, is she entitled?

5. It is stated in the Company's written statement that Shrimati Bayam voluntarily resigned in presence of her Departmental Works Committee Member and that she lifted her dues on 1st May 1959. O. P. W. 1 Shri G. P. Sehgal, Personnel Officer of Messrs. Thomas Duff, states that he has personal knowledge of the case relating to Shrimati Bayam. He states that Shrimati Bayam wanted to resign of her own accord and that she went to the Labour Officer and expressed her desire to resign and asked for a form for writing application for resignation. This form, Ext. A(1), was filled up in the presence of the Labour Officer. She put her thumb impression Ext. A, in the presence of the Works Committee Member of her constituency. The Senior Labour Officer was also present. It is further deposed that she has collected all her dues and that she was paid gratuity even for the period covered by provident fund as an ex-gratia measure. O. P. W. 2 Shri Janardan Mistri states that he is a Member of the Works Committee and that Shrimati Bayam used to work in his department and further that she gave thumb impression on Ext. A in his presence. O. P. W. 3

Shri Sisir Kumar Sen is the Senior Labour Officer of the Company. This witness, the veracity of whose statement I can hardly disbelieve, states that Shrimati Bayam came to the witness and wanted the form, Ext. A(1), and that the witness was present when the form was filled in by Shrimati Bayam.

6. On giving my most anxious consideration to the matter, I find that Shrimati Bayam voluntarily resigned her post on receipt of her dues, and that she is not entitled to any relief.

This issue is accordingly answered.

Issue No. 2: Is Md. Ismail Hossain entitled to any sick leave benefit? If so, what?

7. In regard to Md. Ismail Hossain, the Company, in its written statement, states that he was granted leave, which he overstayed by four weeks for reasons of his alleged illness and that he applied for extension of leave twice, each time for a fortnight in succession along with a medical certificate and further that the extension of leave applied for was granted to him but the same was not treated at sick leave, as the medical certificates were not approved by the Mill Medical Officer. The worker did not report to the Mill Medical Officer before resuming his work, even though he was instructed to do so by the Mill Labour Officer. O. P. W. 1 substantially corroborates the statement of the Company. This witness states that this worker applied for extension of leave twice, each time for a fortnight in succession along with a medical certificate. The witness further states that the extension of leave applied for was granted, but the same was not treated as sick leave, as the medical certificates were not approved by the Mill Medical Officer, as required by the Jute Tribunal Award. It is further stated that the Company granted the worker leave, but did not treat this leave as leave for the purpose of granting him benefit of sick leave and that the action of the Company was justified by the directions in the award. The witness further deposes that when a man over stays leave on the ground of sickness, the Company wants to be sure that he is really sick before it can grant him sick leave benefits. O. P. W. 3 states that Md. Ismail Hossain was not given sick leave benefits, because he did not have his medical certificates approved by the Mill Medical Officer, even though he was asked to do so, and that the witness personally asked the workman to approach the Mill Medical Officer and have his medical certificates countersigned by him. This witness further states that there are frequent cases of malingering in the Mill and as Ismail Hossain did not follow the instructions of the authorities, he was not paid sick leave benefits.

8. It is sufficiently clear from the depositions of O. P. W. 1 and O. P. W. 3 that Md. Ismail Hossain did not have his medical certificates approved by the Mill Medical Officer as required under the Jute Tribunal Award, in spite of the fact that he was directed by O. P. W. 2 to approach the Mill Medical Officer and have his medical certificates countersigned by him. It is decided that Md. Ismail Hossain is not entitled to any sick leave benefits and I award accordingly.

Eastern Agency Corporation, 285-E Bowbazar Street, Calcutta-12, and their workmen represented by the Shop Assistants Association of Bengal, 7 Padmapukur Road, Calcutta-20, regarding the issue mentioned in the said order being a matter specified in the second schedule to the Industrial Disputes Act, 1947 (XIV of 1947), was referred for adjudication to the Second Labour Court;

And whereas the said Second Labour Court has submitted to the State Government its award on the said industrial dispute;

ANNEXURE

In the matter of an industrial dispute between Messrs. Eastern Agency Corporation, 285-B Bowbazar Street, Calcutta-12, and their workmen, represented by the Shop Assistants' Association of Bengal, 7 Padmapukur Road, Calcutta-20. (Case No. VIII-C—251 of 1958.)

BEFORE THE SECOND LABOUR COURT, WEST BENGAL

Appearances:

For the Shop Assistants' Association of Bengal: Shri Madan Mohan Saha, Advocate.

For the Company: None.

Government of West Bengal, Labour Department, by their order No. 4206-I.R./IR/11L-501/58, dated Calcutta, the 4th October 1958, referred an industrial dispute between Messrs. Eastern Agency Corporation and their workmen represented by Shop Assistants' Association of Bengal, to the Second Labour Court, for adjudication.

Issue formulated in the order of reference is as follows:

Issue

Whether the dismissal of Shri Susanta Kumar Bardhan is justified? To what relief is he entitled?

The case of the Union briefly stated is as follows:—

Shri Susanta Kumar Bardhan, workman in question, was appointed as an assistant in the Company at a consolidated monthly pay of Rs. 150 with effect from 1st June 1956 on probation for three months. After the period of probation he approached Shri A. C. Boral, one of the partners of the firm, about his confirmation. Shri Boral replied that this would be done in due course. By a letter, dated 1st December 1956, the Company terminated the service of Shri Susanta Kumar Bardhan with effect from 2nd December 1956 on the ground that his services were unsatisfactory. He denies that his services were unsatisfactory. His contention is that he was dismissed as he objected to the payment of less than the stipulated pay. The Union contends that the dismissal of Shri Susanta Kumar Bardhan was unjustified and it prays for his reinstatement, payment of compensation for forced unemployment and payment of salary for the period served by him.

The case of the Company is that it rightly dismissed him as his work was unsatisfactory.

AWARD

After filing of written statements by both sides, the case was fixed on 1st September 1959 for hearing. On that date the Union was ready with its evidence but none appeared for the Company. So the case was adjourned to 17th September 1959 for hearing and the Company was informed that if it did not appear on that date, the case would proceed ex-parte. On 17th September 1959, the Company filed a petition praying for an adjournment and accordingly the case was adjourned to 24th September 1959 for hearing. On that day none appeared for the Company. So the case was taken up ex-parte. Two witnesses were examined on behalf of the Union. It is clear from their evidence that the Company dismissed the workman in question without any valid reason. It also appears from their evidence that though the workman in question was appointed at a monthly pay of Rs. 150, he was paid only Rs. 50 for each of the months of August and September 1956. It also appears from their evidence that he was not paid his salary for the months of October and November 1956.

I therefore hold that the dismissal of Shri Susanta Kumar Bardhan was unjustified. As however he was not confirmed in service and had put in only six months of service, I do not order his reinstatement. I however order that the Company shall pay him Rs. 650 being the balance of his salary for the period of his service plus Rs. 150 in lieu of notice plus Rs. 300 as compensation for wrongful dismissal.

The award will take effect within 15 days of the date of publication of this award in the "Calcutta Gazette".

If the cost of living index goes up by 10 points, the dearness allowance will be increased by 2.5 per cent. on each slab, the minimum of Rs. 35 remaining unchanged. Similarly, if the cost of living index goes down by 10 points the dearness allowance will also come down by 2.5 per cent. on each slab, the minimum of Rs. 35 remaining unchanged. If the variation in the cost of living index is less than 10 points there will be no change."

For the Union: Shri Lenin Roy, Advocate, with Shri Sachidanand Pandey, General Secretary of the Union.

For the Company: Shri T. K. Jagdeesh, Labour Adviser of West Bengal Dal Mill Owners' Association.

AWARD

By order No. 86-I.R./IR/III-634/58, dated the 10th January 1959, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. Shree Gopal Trading Co., 8/1 Haradutt Chamaria Road, Howrah, and their workmen represented by West Bengal Confectionery and Food Products Mazdoor Union, 90 Lower Chitpur Road, Calcutta-7, regarding the matter specified in the schedule to the Third Industrial Tribunal constituted under section 7A of the Industrial Disputes Act, 1947, by notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957, for adjudication.

Issue

Whether the closure of the Mill from 21st April 1958 to 13th July 1958 is justified?

To what monetary relief the workers are entitled?

The reference was received by this Tribunal on 16th January 1959. Usual notices were served upon the parties. The Union filed its written statement on 17th February 1959 and the Company on 20th March 1959. After pleading were completed the hearing was fixed on 11th August 1959 which was put up for orders on 26th September ber 1959. After the case was opened the parties came to an amicable settlement and filed a joint petition of compromise on 24th September 1959 which was put up for orders on 26th September 1959. In terms of the said petition of compromise the Company made payments as agreed between the parties to five of the wrokers, namely, Tirath, Taleswar, Girjanan, Babu Lall and Koiri on 26th September 1959 before this Tribunal and the parties agreed to make payments to the remaining workers in the factory in the presence of the Secretary of the Union on that very day and also to send the dues as agreed between the parties to those workmen who were out of Calcutta by money order on 28th September 1959.

It thus appears that the dispute between the parties has been amicably settled in terms of the petition of compromise jointly filed by the parties before this Tribunal on 24th September 1959. The terms of the petition of compromise appear to be fair and reasonable and I accordingly give effect to the terms of the same. I, therefore, make the award in terms of the petition of compromise filed by the parties and the petition of compromise be made a part of this award.

37. Shri Iswar Chandra.

By a corrigendum No. 538-I.R./IR/8L-17/58, dated Calcutta, the 14th February 1959, Government deleted the words "till the date of reference of the dispute to a Labour Court".

As the two disputes are between identical parties and as the issues mentioned in the second order of reference hinge on the issue mentioned in the first order of reference, the two disputes were heard together and the same evidence was recorded for both the cases. Accordingly, I am dealing with all the issues mentioned in the two orders of reference in one award.

Though 37 workmen have been mentioned in the lists attached to the orders of reference, at the hearing the Union has taken up the case of the following 9 workmen only:

1. Shri Kalipada Das.
2. Shri Jadab Ch. Karmakar.
3. Shri Manindra Nath Bhowmick.
4. Shri Sudhir Kumar Das.
5. Shri Harendra Nath Bhowmick.
6. Shri Madhu Sudan Pain.
7. Shri Atul Chandra Das.
8. Shri Sibendra Narayan Ganguli.
9. Shri Arun Kumar Chakraborty.

So my award will relate to the above nine workmen only.

The issues mentioned in the two orders of reference read with the corrigendum thus stand as follows:

(1) Whether the above nine workmen should be treated as directly employed workers of the Company. To what relief they are entitled?

(2) Whether the refusal of the Company to allow the above 9 workmen to work in the factory is justified. What relief are they entitled to?

(3) Whether they are entitled to arrear wages on account of payment at a reduced rate with effect from January 1958. What should be the rate of wages of these workmen?

The case of the Union, briefly stated, is as follows:

(1) The above nine workmen are direct employees of the Company.

(2) On the complaint of the Union lodged with the Factory Inspector in 1957, the Company had to register the concern under the Factory Act in January 1958. This enraged the Company which tried to deprive the workmen of the benefits of the Factory Act and to harass them in other ways. The Company started paying less wages to the workmen. The workers put in a petition to the Company for bonus before the pujah in the year 1958. While conciliation proceedings with regard to the above claim for bonus were going on, the Company suddenly started refusing work to 11 workmen including Sarbashri Kalipada Das, Jadab Ch. Karmakar, Sudhir Kumar Das, Madhu Sudan Pain and Sibendra Narayan Ganguli on and from 17th November 1958. On 19th November 1958, the Company declared a lock-out, thereby refusing work to the remaining workmen including Sarbashri Manindra Nath Bhowmick, Harendra Nath Bhowmick, Atul Chandra Das and Arun Kumar Chakraborty out of the above nine.

The company's case in brief is as follows:

(1) The above nine persons are independent contractors and are not direct employees of the Company.

(2) The Company terminated the services of 11 independent contractors including five out of the above nine on 17th November 1958 due to decrease in the orders placed with the Company. The other independent contractors including four out of the above nine and the direct employees of the Company went on stay-in-strike from 21st November 1958. On 24th November 1958, the Company issued notices to those contractors asking them to resume execution of the contracts within 24 hours. They did not resume work and went on stay-out-strike from 25th November 1958. Similar notices, dated 1st December 1958, were sent to all concerned; but none of them joined work. On 4th December 1958, the Company terminated the contracts of the remaining contractors.

AWARD

The Company has raised an initial objection that the orders of reference issued by the Government are bad in law on the grounds stated in its written statement. I do not mention them in details, as they do not stand even a cursory scrutiny. Accordingly, I reject them and I hold that the orders of reference are valid. So I enter into the merits of the case.

Issue No. 1: The Union has adduced oral evidence to the effect that the nine workmen in question were paid at different daily rates of wages and that they used to be paid at those rates at the end of every month. The Union has not produced any documentary evidence in support of this oral contention. The Company, on the other hand, has adduced documentary evidence to show that they were paid at piece rate, but the fact that they were paid at piece rate does not prove that they are independent contractors. It has been laid down in several decisions that the tests for determination as to whether particular persons are workmen or independent contractors are whether the management exercises control over such persons, whether they are required to execute work according to instructions given by the management and whether the management can determine the manner of the execution of their work. It is clear from the evidence of the Manager and one of the partners of the Company that the Company exercised control not only over the work of these workmen but also over the manner of the execution of their work. It is true that the Company maintained two different attendance registers for its direct employees and for these workmen. But this is no criterion for determining the question whether they are direct employees or independent contractors. The nature of the work done by the workmen, the manner of execution of the work, the hours of attendance, the fact that they did the work themselves and other attendant circumstances clearly prove that though they are not paid per day but by the job, nevertheless they were under the constant control of the management. So I hold that they should be treated as directly employed workers of the Company.

Issue No. 2: It has been admitted by the Company that on 17th November 1958 it terminated the services of 11 workmen including Sarbashri Kalipada Das, Jadab Ch. Karmakar, Sudhir Kumar Das, Madhu Sudan Pain and Sibendra Narayan Ganguli. The reason stated by it before me is that there was decrease of work; but the Company did not state this reason in its letters to those workmen. So this is clearly an after-thought. So the refusal of the Company to allow the above five workmen to work in the factory is unjustified. As regards Sarbashri Manindra Nath Bhowmick, Harendra Nath Bhowmick, Atul Chandra Das and Arun Kumar Chakraborty, the Company denies that it refused to give them work. It has produced letters to show that it asked them to attend work, but in vain. There is no reason to disbelieve this part of the evidence adduced on behalf of the Company. So I hold that the Company did not refuse work to these four workmen. So the question whether the refusal of the Company to allow them to work in the factory is justified does not arise.

I order that the Company shall allow Sarbashri Kalipada Das, Jadab Chandra Karmakar, Sudhir Kumar Das, Madhu Sudan Pain and Sibendra Narayan Ganguli to work in the factory. As to the period of their forced unemployment I order that the Company will pay them from 17th November 1958 to the date on which they are reinstated

on their work at half their average earnings for three months prior to 17th November 1958. As I have held above that the Company did not refuse work to Sarbashri Manindra Nath Bhowmick, Harendra Nath Bhowmick, Atul Chandra Das and Arun Kumar Chakraborty, they are not entitled to any relief.

Issue No. 3: I have held above that the workmen in question were paid not by the day but by the job. So there could not be any fixed monthly remuneration. The Company has adduced evidence to the effect that their earnings varied month to month according to work put in by them. The Union has not been able to controvert this portion of the evidence adduced by the Company. There is nothing in evidence to show that the Company reduced the piece rate with effect from January 1958. So the question whether these workmen are entitled to arrear wages on account of payment at a reduced rate with effect from January 1958, and the further question what should be the rate of wages of these workmen do not arise at all.

This award shall take effect within a month from the date of its publication in the "Calcutta Gazette".

Take at my dictation and corrected by me.

Presiding Officer.

ANNEXURE

In the matter of an industrial dispute between Messrs. Turner Morrison & Co. (Private) Ltd., 6 Lyons Range, Calcutta-1, and one of their workmen Shri Amar Nath Mukherjee, represented by the Turner Morrison & Co. Employees' Union, 7 Swallow Lane, Calcutta-1. (Case No. VIII-C-231/58.)

BEFORE THE SECOND LABOUR COURT, WEST BENGAL

Present:

Shri HEM RANJAN DEB, Presiding Officer, Second Labour Court.

Government of West Bengal, Labour Department, by their order No. 3997-I.R./IR/III-434/58, dated Calcutta, the 19th September 1958, referred to the Second Labour Court, an industrial dispute between Messrs. Turner Morrison & Co. (Private) Ltd., and one of their workmen Shri Amar Nath Mukherjee, represented by the Turner Morrison & Co. Employees' Union, for adjudication regarding the issue specified in the schedule.

Schedule

Is the dismissal of Shri Amar Nath Mukherjee justified? To what relief is he entitled?

The case of the union, briefly stated, is as follows:—

Shri Amar Nath Mukherjee, the workman in question, was a clerk in the Marine Department of the company for nearly 22 years. He was granted sick leave for five days from 23rd June 1958. The three subsequent dates being holidays, he was to join office on 1st July 1958. On that date while he was on the way to the Railway Station en route to office from his house at Khardah, he felt a severe pain on the right leg and could not continue his journey to attend office. Later in the day he was examined by a doctor who advised him to take rest for four or five days and to get himself treated in the local hospital. On 2nd July 1958 he sent an application for leave to the company by post and went to the local hospital a little after 8-30 a.m. He had to wait at the hospital till about 2 p.m. On his return home from the hospital he was told that two gentlemen from the office had come to his house and had left a letter for him. That letter was under the signature of Captain E. C. Young, head of the Marine Department of the company, and in it he was asked to report immediately with a written explanation as to why he had not resumed work on the expiry of the medical leave. Accordingly he attended office on 3rd July 1958. On 5th July 1958 a charge-sheet was issued to him. The charge mentioned in it was absence from work on 1st and 2nd July 1958 without official leave and habitual neglect of duty in spite of previous warning. He gave his explanation on 7th July 1958, pointing out that he could not attend office on 1st and 2nd July 1958, due to illness. On 10th July 1958 Captain E. C. Young purported to hold an enquiry. The proceedings of the enquiry were showed to Shri

Mukherjee on 15th July 1958 and under pressure from Captain Young he signed it. Acting on the report of Captain Young the company by a letter, dated 16th July 1958, dismissed Shri Mukherjee from service with immediate effect. Later, on the representation of the Union Mr. Fountain, the head of the company in Calcutta, gave a hearing to Shri Mukherjee. On that date no evidence was taken by Mr. Fountain and without making any enquiry Mr. Fountain confirmed the dismissal previously ordered and this was communicated to Shri Mukherjee by a letter, dated 1st August 1958. The Union contends that the order of dismissal is unjustified on the grounds that the charges mentioned in the charge-sheet were vague, proper enquiry was not held, the finding of enquiry was perverse and other similar grounds. The Union therefore prays that Shri Amar Nath Mukherjee should be reinstated and paid back wages for the period of forced unemployment.

The company contends that the charges are specific and that proper enquiry was held. It states that at the enquiry Shri Mukherjee pleaded guilty to the charges brought against him and that in token of that fact he signed the enquiry proceedings. The company denies that he was forced to sign those proceedings.

Appearances of the parties are as follows: —

For the Union: Shri Niren De, Counsel, Shri B. Chaudhury, Counsel, assisted by Shri Jiten Banerjee.

For the Company: Shri R. Goswami and Shri M. K. Mukherjee, Officers of Bengal Chamber of Commerce and Industry.

FINDINGS

The enuiry proceedings of the company have been made exhibit in this case. It shows that Shri Mukherjee pleaded guilty to the charges and begged to be excused. In spite of this plea of guilty Captain Young, the Enquiring Officer, took some evidence about the charges. In the evidence before me the Union has tried to prove that Shri Mukherjee was really ill on 1st July 1958 and 2nd July 1958, but there is serious discrepancy in its evidence. Shri Mukherjee says that on 1st July 1958 he left home for going to office, but could not reach office as he felt pain in his leg on the way, but his wife Shrimati Karuna Mukherjee says that on 1st July 1958 Shri Mukherjee was very ill and his condition was very bad. This would show that on 1st July 1958 he could not have been able to stir out of the house. The evidence on the point that Shri Mukherjee was in the local hospital till about 2 p.m. on 2nd July 1958 is also not convincing. In this back ground it was only natural for Shri Mukherjee to admit before his superior officer that he was absent on 1st July 1958 and 2nd July 1958 without any valid ground. On the evidence adduced before Captain Young he could reasonably come to the conclusion that Shri Mukherjee was absent on 1st July 1958 and 2nd July 1958 without official leave. The evidence led before Captain Young about the charge of neglect of duty in spite of previous warnings is no doubt not a detailed one; but it must be remembered that Shri Mukherjee pleaded guilty to this charge also. So detailed evidence was uncalled for.

Learned Counsel Shri De on behalf of the Union advanced the argument that the facts that Mr. D'Cruze and Shri Mrigen Bose had been to the house of Shri Mukherjee on 2nd July 1958 and that Shri Saileshwar Chatterjee saw Shri Mukherjee at the crossing of Bowbazar Street and College Street at 6 p.m. on 1st July 1958 should have been mentioned in the charge-sheet as they formed the basis of the charge. I am afraid, I cannot agree with the learned Counsel in this contention. Those facts are obviously matters of evidence and the Union cannot expect that the company should state the evidence in its possession in the charge-sheet.

The learned Counsel further argued that Shri Mukherjee was not allowed to be represented by any official of the Union at the interview which he had with Mr. Fountain. This is true, but it must be remembered that at the beginning of the enquiry before Captain Young he (Captain Young) asked Shri Mukherjee whether he wanted to be represented by any official of the Union at the enquiry. Shri Mukherjee replied in the negative. Mr. Fountain did not hold any enquiry; he only gave a hearing to Shri Mukherjee. So it is not understood what useful purpose would have been served if Mr. Fountain allowed any official of the Union to represent Shri Mukherjee at the interview. The learned Counsel for the Union has admitted in his argument that the action of Captain Young was not mala fide. It is not the Union's case that there were any victimisation or unfair labour practice. The only contention of the Union is that Captain Young did not hold the enquiry in the way he should have done. In view of what I have discussed above I hold that the enquiry held by Captain Young was proper. So I find no reason to interfere with his finding.

The learned Counsel on behalf of the Union has contended that the punishment inflicted has been severe. This may be partly true; but it is now a settled law that once I agree with the finding of guilty, I cannot interfere with the quantum of punishment. Further, it has got to be remembered that the company has offered to Shri Mukherjee a gratuity of Rs. 2,000. In view of the above considerations, I hold that the dismissal of Shri Amar Nath Mukherjee is justified. As such he is not entitled to any relief.

In the matter of Government of West Bengal, Labour Department, order No. 5353-I.R./IR/15L-10/58, dated 16th December 1958.

The humble petition of the Company and the union above

Most respectfully sheweth:

That in the above matter the petitioners have come to an amicable settlement and have agreed as follows:—

Re: Issue No. 1 (whether the Ghani Mazdoors should receive proportionate increase in wages for working 8 presses).

Both the parties have agreed that this question should be dropped and the Union has withdrawn its claim.

Re: Issue No. 2 (bonus for 1957-58).

The Company have agreed to pay a total lump sum payment to the extent of 2 months' wages in respect of the union's demand for bonus not only for the year 1957-58 but also for the year 1958-59. This will be treated as an ex-gratia payment and it will not be treated as a precedent in future. This payment will be made only to the permanent workmen who are still in service on the date of this agreement according to the number of days worked by each of them during the years 1957-58 and 1958-59. Union has accepted the same and the workmen will have no claim in any shape either as a profit bonus or as Puja bonus for the 2 years, viz., for the year 1957-58 and for the year 1958-59. This payment will be made in the first week of October 1959. Those workmen who have not received their final payment will also be entitled to receive the same advantage in respect of this payment.

Re: Issue No. 3 (whether 60 workers—names attached in a separate sheet—of the mills should be made permanent).

Both the parties have agreed to make permanent the following persons among the sixty persons mentioned in Annexure B of the Union's written statement. They are to report to duty on and from the 12th October 1959:—

(1) Balgovind Kurmi.
(2) Bhagelu Ahir.

(6) Jhinguri Kahar.

(9) Bibhuti Bhusan Pandit.
(10) Sinew Baran Kahar.

The union has dropped such claim in respect of other workers.

Re: Issue No. 4 (whether there should be 3 munshies in the Expeller Section of the mill).

This claim is dropped. The existing practice and custom will continue.

Re: Issue No. 5 [whether the management was justified in discharging (1) Shri Surya Chamar, and (2) Shri Ram Dayal Singh; to what relief are they entitled].

Both the sides have agreed that Surya Chamar will be re-employed with continuity of service on a salary of Rs. 80 (basic Rs. 45) and dearness allowance Rs. 35 in his former post. He is to report to duty on and from 12th October 1959.

Both the parties have agreed that Ram Dayal Singh will be re-employed with continuity of service but without compensation. He is to report to duty within five days from the date of agreement if he is available at that time.

Under the circumstances your petitioners most respectfully pray that your honour will be pleased enough to pass an Award in terms of the compromise as stated above.

AWARD

By Government order No. 5352-I.R./IR/10L-83/58, dated 16th December 1958, a dispute between Messrs. Jay Engineering Works, Ltd. (hereinafter referred to as the Company) and the workmen of Sales Organisation of the Company, represented by the National Union of Mercantile Employees (hereinafter referred to as the Union), was referred to this Tribunal for adjudication. The parties have come to terms and they have filed a joint petition praying for passing an award according to the terms of the settlement arrived at. The terms are fair and reasonable. An award is therefore made as prayed for by the parties in terms of the Memorandum of Settlement. The joint petition and the said Memorandum of Settlement filed by the parties on 25th September 1959 do form parts of the award as Annexures A and B respectively.

This is the award of the Tribunal.

The management of the Company as well as the office-bearers of the Union are to be congratulated for the reasonable and conciliatory attitude they have shown in arriving at the aforesaid settlement. In this connection, the names of Shri C. L. Mehra, Circle Sales Manager, and Shri S. K. Asthana, Labour Adviser, Engineering Association of India, on the side of the Company, and of Shri Phani Ghosh, President, National Union of Mercantile Employees and of Shri Barin Ghosh and Shri Achinta Sen, who are representatives of the workmen concerned deserve special mention for their wholehearted efforts for coming to the aforesaid settlement. It should be observed that the dispute affected a very vital department, namely, the sales branches of the Company which is running a very important industry, namely, the manufacture of sewing machines, fans, etc. If the matter had not been amicably settled and the dispute were protracted, it would have been highly detrimental to the smooth progress of the industry as well as the well-being of the workmen. It goes without saying that amicable settlement of such disputes is the best way of maintaining industrial peace which is the primary object of the Industrial Disputes Act and similar legislations and which cannot be advanced if the parties go on fighting their cases in the Tribunals and Courts (from lower to higher) like a class of veteran and hard-boiled litigants as is to be frequently found in the ordinary Courts of the country who turn the same to a lawyers' paradise, so to say. So the spirit of conciliation and good sense shown by the parties in the instant case deserve emulation by others of their class.

For the Company: Shri S. C. Sen, Advocate, assisted by Shri S. K. Bagchi, Advocate.

This is a case of voluntary reference to rbitration, under section 10A of Industrial Disputes Act, 1947, of an industrial dispute, etween the Gaya Ganga Tea Estate, P.O. Kamalabagan (Darjeeling) (hereinafter referred o as the Employer), and its workmen represented by Terai Cha-Bagan Shramik Union, Bhojnarayan Tea Estate, P.O. Kamala, Darjeeling (hereinafter referred to as the workmen). This reference was made by an order of he Government of West Bengal, Labour Department, order No. 3632-I.R./1R/9L-23/58, dated the 28th August 1958.

This reference is the outcome of a memorandum f settlement, dated 16th April 1958, between he parties to the dispute, reached at a tripartite meeting held on the same day, as also an agreement, dated 26th June 1958, between the parties n the presence of the Conciliation Officer, Darjeeling.

This was received in the office on 1st September 1958 and due notices were issued to the parties, by registered post, in which they were asked to submit their written statements touching the dispute. The parties, since then, submitted their statements. This case was, after a number of adjournments, taken up for hearing and was heard partly at Jalpaiguri and partly in Calcutta. Both parties adduced oral and documentary evidence and advanced arguments in this case.

The case of the workmen, as briefly stated, in their written statement is that early on the morning of 19th February 1958, they came to work, in Section 6 of the garden, and found the Ticca, i.e., the task of 20 Laggies, fixed by the management, too heavy and asked the manager for its reduction. The manager, having refused their request, they went to work and completed the task, as they did in the previous years. They went on working as before but since 20th February 1958, i.e., from the next day, no Babu or any Kamjari came to Sections 2 and 6. The workmen from Bachabari joined and worked in Sections 2 and 6. They went on working without any quarrel with the management but the management locked out the garden from 17th March 1958. This lock-out was lifted on and from 21st April 1958, in terms of an agreement, dated 16th April 1958, reached between the parties, in the meantime. Theophil, Blasius, and Manfiran, 3 of the workmen, were refused employment, although they came for it on the same date. These 3 workers were suspended without any notice, nor were paid any wages from 12th February 1958 to 16th March 1958 in spite of repeated demands.

At the hearing, their further case is that the newly appointed manager, who assumed charge of the office in the beginning of the month of February 1958, introduced with effect from 13th February 1958 an increased Ticca or task load of 20 Laggies, in Section 6 of the garden, including the levelling of the ground. The workmen felt this increased load of work too heavy to be completed in one Hazri and approached the manager for a reduction of this load by few Laggies. The soil in Section 6 was hard at the time and the ridging operations in the previous years did not include any levelling of the ground. The manager didn't listen to this request and asked them to work the Ticca, or leave the job. The workmen, thereafter, did the levelling, in ridging operations, in Section 6, but unfortunately could not complete the Ticca of 20 Laggies. The manager, on 24th February 1958, suddenly refused employment to 7 of them, whom he subsequently dismissed without any charge and enquiry. The dismissed workmen included (1) Theophil, (2) Balsius, and (3) Manfiran, who were victimised for their connection with the Union. The Garden Babus, Daffadars and Kamjaries, having withdrawn from the work of supervision, at work sites, the workmen continued to work in Sections 2, 6, and Bachabari without their Hazri being recorded by the Baiders. In the meantime the Assistant Labour Commissioner, Darjeeling, came to the

garden and tried to conciliate in the dispute over this Ticca, but due to the management's stern attitude failed. The management locked out the garden with effect from 17th March 1958 without notice and without any ground whatsoever. As a result of the personal intervention of the Hon'ble Labour Minister, a memorandum of settlement was drawn up and signed on 16th April 1958, and the lock-out was lifted with effect from 21st April 1958. Four out of seven dismissed workmen were reinstated and the remaining 3 were asked to be provided with employment in any other establishment till their case was investigated and settled on arbitration. The parties agreed, as stated above to place the unresolved disputed points to this arbitration. The workmen contend that in any event, the look-out of the whole garden was arbitrary and unjustified and, as such they are entitled to compensation for loss of earnings during this period of lock-out. They further contend that the dismissal of the 3 persons, named above, are purely acts of victimisation for their Union activities and unjustified being opposed to the principles of natural justice. The workmen asked for their reinstatement with all back wages and also for payment of full wages, for the period, in which the management had refused it for "incomplete" work.

The employer's case in reply, in brief, is that the workmen did start work in Section 6 of the garden doing ridging operations including levelling the ground on 18th February 1958. They completed the task of 20 Laggies as in the past years without any objection whatsoever. On 19th February 1958 they completed the task during the morning hours (Hazri) but refused to complete the same task in the Doublee in Section 2. From the next day onwards, they refused to "do levelling the ground" as a part of "ridging operations" in any place and to complete the task of 20 Laggies. They assembled here and there at work sites within the garden and during the working hours and held meetings in which they resolved, among others, not to obey the orders of the superior officers, including the manager, and to refuse to complete Ticca of 20 Laggies including the levelling the ground. Disregarding all the directions to the contrary, they worked here and there as they liked and not at the place where they were alloted to do their work. They also refused the Daffadars, Garden Babus and Kamjaries to supervise their work and the Baiders to register their attendance in the Hazri book. They openly flouted the orders of the management and went on doing work as they liked disobeying all instructions from the management, despite previous warnings and notices. On 24th February 1958, 7 workmen were suspended, pending enquiry, and their services were terminated on proper charges and proper enquiry. The condition of the garden however went on deteriorating and the management in order to save the life of the garden official and property declared a lock-out of the garden with ecect from 17th March 1958. This was lifted only on and from 21st April 1958, in terms of an agreement, between the parties in which, among others, they agreed to refer to arbitration the unresolved parts of the dispute. Four out of seven dismissed men were reinstated and three were offered employment elsewhere which offer they refused. There had been considerable damage to the garden and the management is not liable for any compensation for the lock-out, or to reinstate the three ring leaders of the movement who were dismissed. The management is prepared to pay full wages for some days from 18th February 1958, but not to all. In short, the employer denied its liability for payment of any compensation, reinstatement and wages. The following points arise for determination in the dispute:—

(1) Whether the dismissal of three, out of seven, workmen are justified? If not, whether they are entitled to reinstatement, or to any other relief?

(2) Whether the workmen should be paid any compensation for the period of lock-out?

(3) Whether or not any workmen left their tasks and performed other tasks in violation of management instructions, and if, the issue is answered in the affirmative, whether such workmen are entitled to receive wages and dearness allowance for such unauthorised work.

AWARD

Findings on issues 1-3: This tea garden is on plain land, with no ups and downs, and within a short distance from Siliguri. The trouble, leading to the present dispute, started over the ridging operations, in Section 6 of the garden. Section 6 and Section 2, to which a reference would be necessary hereafter, are separated by a distance of about 150 yards only. The soil in all sections of the garden is the same, i.e., ordinarily not hard. About 60 to 150 labourers are employed in different works in Section No. 6. In 1958, the ridging operations started first in Bachabari, where the young plants are grown and nursed and where the work of the weeding out of jungles has got to be taken up first for the protection of the health of the young plants. The work was undertaken towards the 3rd week of January that year and continued without any objection from the workers employed there. The ridging operations, in Section 6, according to the management, started on the 19th of February 1958, and according to the workmen, a day earlier. The workers employed in this work are to complete a Ticca or task load. This is 20 Laggies in a Hazri. There is no dispute over this. The workers' case is that the Garden Manager, Shri A. J. Singla, who is O.P.W. 1, in this case, asked them to do the additional work of "levelling the ground" within this task load of 20 Laggies, the work which they didn't do any time before that and which they alleged is extremely difficult to perform due to the hardness of the soil, within the morning hours, i.e., the Hazri. According to the management, the task load was not at all difficult and that the ridging operations included levelling of the ground, and in fact form an essential part of it. The work could be easily completed and in fact was completed in Bachabari and other sections of the garden without any objection from the workers employed there. Admittedly, the workers approached the manager for a reduction of this Ticca by few Laggies which the manager did not listen. The result was that from the afternoon of the 19th February 1958 the Ticca was not completed in

Section 2 and from the next day in Section 6 also. The Assistant Labour Commissioner (Darjeeling), at once came down and tried to mediate in the matter. The labourers repeated the same request to him for the reduction of the Ticca, or for an 8-hour work a day. The management didn't agree and the negotiations for the time being broke down. There is no controversy between the parties up to this stage. The workers' further case is that they continued to do their task, but could not unfortunately complete the Ticca despite their best endeavour and the management's case is that they started agitation, taking advantage of the presence of present new incumbent in the office of the manager, most unreasonably, for reduction of this Ticca, with the idea of bringing down one after another the Ticca, or task load for all other works. The workers, led by Theophil, Bilasius, Manfiran and four others, who are subsequently dismissed, created disturbances, during the working hours, by holding unauthorised meetings inside the garden, by leaving their places of work, and doing work here and there at their sweet will, disregarding the directions of the management. They disobeyed the authority of the garden officials, Garden Babus, Daffadars, Kamjaries and Baiders and did not allow them to inspect their work and even to record their attendance. They continued to do that despite warnings and notices and created chaotic conditions inside the garden.

The management further alleged that due to these disturbances and indisciplined conduct of the workmen the normal work practically came to a standstill and by a notice in writing, it demanded an assurance from the workmen, within a short time, as to the resumption of normal work and maintenance of order and discipline in the garden. The workmen did not pay any heed to this notice and continued as before. The management, thereafter, after a previous notice locked out the garden with effect from 17th March 1958. The workers' defence, on this point, is practically a denial of the management's story. They claimed compensation for loss of their earnings, during the period of this lock-out, which they alleged was unjustified and provoked by the high-handed action of the management to enforce a heavier task load, without caring for its reaction on the workers. The employer stoutly denied its liability to pay any compensation and O.P.W. 1, Shri Singla, the manager of the garden, said in his evidence that the management was put to a heavy loss, running into several thousand rupees, as a result of the indisciplined and unjustified action of the workers which led to this lock-out.

The garden was locked out by a notice, dated 15th March 1958, over the signature of the manager (Ext. M-36). This took effect from 17th March 1958, and was lifted, as a result of a tripartite settlement, between the parties, dated 16th April 1958. This settlement was made in the presence of the Hon'ble Labour Minister and the Deputy Labour Minister, who personally intervened in this matter. As a result of this settlement, all except three dismissed workmen, whose case is also under consideration, resumed their work on 21st April 1958. Practically speaking, the period of lock-out lasted for about a month only. Except a few monthly-paid staff, all the other workmen suffered loss in their earnings, viz., in wages and dearness allowance and also in ration. The question is whether the workmen should be paid any compensation for this period. The employer has, as already stated above, stoutly denied its liability to pay any compensation and contended that it had no option in the matter of declaring this lock-out and in fact was compelled by the indisciplined conduct of the workmen, as a whole, to take this step to safeguard the life of the garden officials, and the garden property. For the first time, in his evidence before me, Shri A. J. Singla said that the garden had suffered a loss, due to death of young plants, which is estimated at about 30 per cent. of the total number and of the value of Rs. 25,000 to Rs. 30,000. He said, the garden requires day-to-day, constant and proper attention from the workers. The young plants, left uncared for, for a long time would be overgrown with jungles and would ultimately die. The potency of the old plants would be affected and that once gone is gone for ever. He assigned one reason for these acts, and that is due to "water logging" which is dangerous for tea bushes. As I stated above, this was not put forward any time before this, as having any connection, whatsoever, with the action of the workers before the lock-out, or which may be considered as a plea for rejecting the workers' claim for compensation. Section 25C, Industrial Disputes Act, provides for payment of compensation to workmen who are laid off by the employer. There is no corresponding provision in the Act for payment of any compensation to workmen during a period of lock-out, but then, there is very close analogy between a case of lay-off and unjustified lock-out, and, on a parity of reasoning, the provisions of section 25C, Industrial Disputes Act, mutatis mutandis may be applied to the latter. Under section 2KKK, Industrial Disputes Act, "lay-off" means refusal by the employer to give employment to its workmen under certain circumstances. A lock-out, under section 2(l) of the same Act means, among others, also a refusal by an employer to employ any number of persons. The question of payment of compensation in this case would, however, depend on whether or not this lock-out is justified in the circumstances of the case, and whether or not the management offered sufficient provocation to the workmen for creating a situation which eventually led to the lock-out. At one stage of the hearing, the management tried to establish that the lock-out was, in fact, the logical effect of an earlier unjustified strike by the workers. Apart from leading evidence to prove that the workers could not complete their task, or, Ticca in Section 6, within proper time, the management totally failed to establish its case. There was no strike in the garden. The work was never stopped within the meaning of section 2(q), Industrial Disputes Act.

The management has examined O.P.W. 1, Shri Singla, manager of the garden, O.P.W. 2, Kumud, Garden Babu, O.P.W. 3, K. N. Khandelwala, his assistant and O.P.W. 4, Lal Sing, a Chowkidar. It has produced a number of notices and correspondence bearing on the subject. The workmen examined the 3 dismissed persons, who are said to have taken a leading part in the agitation, which led to this lock-out, and examined a

woman worker, P.W. 3, Shalmi, and 3 officers of the supervising staff, namely, P.W. 1, Murla Munshi, a Kamjari, P.W. 2 Joseph, a Daffadar and P.W. 7 Jaglu, also a Kamjari. Except the 3 dismissed workmen, all are now in the employment of this garden and are under the influence of the management. In a dispute of this description, the evidence of the parties is likely to be more or less of a partisan character. I was not at all surprised to find that it is so in this case.

The genesis of this dispute lies, as already said, in the imposition of a Ticca or task load for the ridging operations in Section 6 of the garden, the Ticca being 20 Laggies. The management's evidence is that this was continuing for a long time and was worked and completed without grumbling by the workers in the past years. The management, however, did not assign any reason, why there should be any dispute at all over a Ticca, which was in force for a long time and was worked without any objection from the workers' side. The ridging operations include levelling of the ground and it is said to form an essential part of the operations. It appears from the management's Order Book Ext. N that till 18th February 1958 deep hoeing was done in Section 6 of the garden before the ridging operations were undertaken with effect from 19th February 1958. So far as I can see, this deep hoeing was done in order to facilitate the work of the ridging operations and, in fact, there is no difference between light hoeing and the ridging operations minus levelling of the ground. Taking the evidence furnished by Ext. N as it is, I fail to understand why the workers should at all object to levelling of the ground, if it actually formed a part of the ridging operations and was done in the previous years for full 20 Laggies. Now it is also said in the evidence of O.P.W. 1, Shri Singla, that the task for ridging in Hazri is the same 20 Laggies in all parts of the garden. 20 Laggies means 90 bushes in 2 rows, i.e., $90 \times 2 = 180$ bushes. One Laggy is equal to 9 bushes of 5 feet, or $4\frac{1}{2}$ bushes of 5 feet apart, in 2 rows. P.W. 2, Joseph, a Daffadar, said that levelling the ground does not form a part of the ridging operations and he had not seen any such Ticca in his experience, in two or three other gardens. The other witnesses speak to the contrary. The worker-witnesses all said that levelling the ground was no part of the ridging operations though some of them reluctantly admitted that it was a part of the same. In actual fact, the workmen objected to the strict enforcement of the Ticca of 20 Laggies, including the levelling of the ground and asked for some reduction of the task by few Laggies. To me it seems that the ridging operations included levelling the ground and the Ticca or task load of 20 Laggies was in force at the time of this dispute when, call it coincidence, or what you like, Shri A. J. Singla, the present manager, assumed charge of the office and employed after a long break of service for several months, P.W. 4, Theophil, as a workman, with effect from 19th February 1958. Shri Theophil is associated with the Workers' Union and is said to be its Secretary, since 1944. He is one of the promoters of the Union and a leading member of it. It does not appear from the Union's own document Ext. IA that he was the Secretary of the Union at all relevant times. Shri Theophil was a contractor, doing some repair works in the garden, before his employment by O.P.W. 1, Shri Singla, on the eve of the present dispute. It is not likely that P.W. 4, Theophil, on the very first day of his employment, after a long spell of absence, would start an agitation over nothing. On the other hand, it is likely that O.P.W. 1, Shri Singla, after having assumed the office of the manager, would try to enforce discipline in the garden by asking a worker to do his Ticca before he can earn his wages. The workers naturally were very much upset, for according to them such a Ticca of 20 Laggies, including the levelling the ground, at a place, where the soil is hard, is impossible of performance within the brief period of a Hazri. They therefore approached the manager for reconsideration of his decision and for reduction of Ticca by one or two Laggies, but he didn't listen. Thereafter, the workers seemed to have started some demonstration of defiance, to back up their demands, and resorted to putting up resistance to orders they disliked. Shri P. Nandy, in supporting the workers' claim, contended that this task load of 20 Laggies, with levelling the ground, actually means paying close attention to 1620 bushes of so many yards apart, within a brief period of 4 hours. According to him that would take the workers at least 6 hours to complete, even if they attended to a bush for a couple of minutes only. Shri S. C. Sen, on behalf of the management, refuted this argument and contended that this work can be easily done within 4 hours, provided the workers had a mind to do it. I think that the work of ridging operations cannot be the same in all places and this is partly accepted by O.P.W. 1, Shri Singla, when he said that the Ticca, in cases of hard soil, is reduced by him without the labour's asking for it, in some months of the year. Accordingly, it cannot be said that this Ticca of 20 Laggies is justified in all cases. I understand that now the full Ticca was restored to though it was temporarily reduced to 17 Laggies under the memorandum of settlement in the dispute. We are not concerned with that, in the investigation of the present dispute. The manager continued the work of the ridging operations in Sections 6 and 2 till 22nd February 1958, i.e., this work was done for 4 days. On the 24th, it appears from Ext. N that Thullying was done in Sections 6 and 2 and ridging was done in Sections 6 and 5. Thereafter, the ridging was done till the end of the month. Seven workmen, including the three before me, were refused employment from 24th February 1958 and the manager stopped rations and payment of full wages to the workers for their inability to do the full Ticca or task load in Section 6. Admittedly, this led to a chaotic condition in the garden. Some of workers left their places of work and worked elsewhere with other workers. This can have only one meaning, namely, to help others in the performance of their Ticca where such help was needed. The management's version however is that the workers did not permit Baiders to record their attendance and worked at their sweet will here and there. It does not appear to be wholly true. In fact, the evidence is otherwise, namely, that the management for the time being, thought of crushing this agitation over reduction of Ticca and adopted measures, namely, withdrawing of the Attendance

Book from the garden and also of the supervising staff. Baiders however, recorded attendance on plain papers, and this evidence appears reasonable in the circumstances of the case. No one is presumed ordinarily to act against his own interest. After all, what is the point in refusing to register one's attendance in the Garden Register, when payment of wages depends entirely on that. The management acted indiscreetly in adopting measures for too rigid implementation of the Ticca after such a long time in Section 6. It hereby offered grave provocation to the workers particularly when it stopped payment of rations and wages to them and also when it refused employment to 7 men, who are connected, somehow or other, in the work of the ridging operations in Section 6. For the time being, the ridging operation was stopped in Section 6, and thereafter, it was renewed, and it appears from Ext. N, that the ridging operations once again were undertaken in Section 6, on 3rd March 1958, and continued with occasional breaks, till 15th March 1958, i.e., before the lock-out was declared. The repercussions of these measures were not at all pleasant and could not be so for obvious reasons. There was demonstration of defiance of authority by the workers, who met here and there at every possible opportunity, and in the absence of the supervisory staff worked as they liked. It further appears that some of them did actually lend at least for some time their helping hand to the workers in Section 6. Even then, somehow or other, the Ticca was not completed except only once on 19th February 1958. There was no assault on any of the garden staff. There was no violent or riotous conduct. Violence means illegal use of force, impetusness, or intensity. No such case was proved in the dispute. There was hardly any damage to the tea bushes. At least, the management didn't complain of any such damage, or loss of property in any of its notifications issued prior to the declaration of the lock-out. This appears, in short, is the evidence, which may be taken as fairly established in this case. A reference to three notices, relevant on the subject issued by the management over the signature of the manager on 13th March 1958, 15th March 1958 and 17th March 1958, appears necessary in this context. These notices are Exts. M-35, M-36 and M-37. M-37, dated 13th March 1958, is to the following effect: The workers are not completing Ticca, they are leaving their places of work and assembling in places of their choice and holding meetings. They are not obeying the Garden Babus and Daffadars. The women workers disobeyed the orders in refusing to pluck leaves. The next notice is N-36, dated 15th March 1958, by which the lock-out was enforced with effect from 17th March 1958. It is to the following effect, that the workers didn't resume normal work and obeyed the lawful orders. In the interest of peace and discipline, the garden should be locked out for there was apprehension of breaking out of violence. Ext. M-35, dated 17th March 1958, i.e., the day when lock-out was enforced, states that some of the workers had gone to work despite those notices. This, therefore, is reasonably clear from the evidence and circumstances of the case as well as from the notices referred to that the lock-out was declared as Ticcas were not completed, and as the workers were leaving their places of work and doing work as they liked, and holding meetings in defiance of lawful orders. It is, however, not clear from the management's evidence that what proportion of the workers actually are guilty of disobedience of orders and who actually could not perform the full Ticca. O.P.W. 1 Shri Singla, admitted that he had no record to show cases of disobedience to orders since 24th February 1958 and also said that he had to close the garden as no one obeyed his orders. On a careful consideration of the facts and circumstances of the case, I am inclined to believe that lock-out was declared as there was disobedience to management's orders by some of the workers, whose number may be small or large, and that there was sufficiently grave provocation for the situation from the side of the management which ultimately led to the lock-out. There was sufficient provocation from the side of the management which led to the creation of an atmosphere of defiance by the workers for which the garden was closed. There seems to be one other weighty reason for holding that this lock-out was untimely and unjustified and that is this. The Assistant Labour Commissioner, Darjeeling, started conciliation in the matter of this dispute, met the parties in the garden and also at Siliguri. It doesn't appear from Ext. N that the work in the entire garden came to a stand still before the declaration of this lock-out. The management in my opinion, precipitated a situation and adopted this rather hasty step of closing the entire garden when there was trouble only in a section of it. Instead of doing that, it should have made a serious endeavour to resolve the dispute by allowing the Conciliation Officer, to make an all-out effort for an amicable settlement of it. For all these reasons, I find this lock-out unjustified. As already stated above, the workers suffered loss in their earnings as a result of the closure of the garden. They are entitled, in the interest of justice, to a reasonable compensation from their employer, but then, no one should be permitted to take advantage of his own wrong. The management took a rather hasty step in declaring a lock-out when its own action in handling the situation was itself open to legitimate criticism. There was indiscretion on its part which gave provocation to the workmen already suffering under an alleged grievance. The workmen again are not altogether free from blame. They did what they should have scrupulously avoided in the interest of industrial peace. Considering the claims and counter-claims of the parties, I hold that the workmen (other than a Badli or a casual) whose names appear on the muster rolls of the garden and who have completed not less than one year of continuous service under the employer (except the three workmen dismissed) shall be paid for the period commencing from 17th March 1958 to 16th April 1958 (date of settlement), except for such weekly holidays as may intervene, a compensation equal to 12½ per cent. of the total of the basic wages and dearness allowance that would have been payable to them, had they not been locked out. This payment should be made within a month from the date of publication of the award.

Next question is whether or not any workmen who left their tasks and performed other tasks in violation of the management's instructions should

be paid any wages and dearness allowance for such unauthorised work. There is evidence on record to show that some workers did actually leave their place of work and did other job in violation of the orders issued by the management. There is no record to show how many of the workmen did actually do such thing. The manager said that he could not and did not maintain any record of cases of such unauthorised work and disobedience. It is admitted, on all hands, that a worker is bound to do the job he is allotted to, under the orders of the management, and to do it at the place assigned to him. He is not free to do any work, at any place, and at any time, disregarding the directions of the supervisory staff. Although I am answering the first part of Issue No. 3 in the affirmative, I am unable to say, in the absence of any evidence, on the point, how many of them are actually involved in this matter. Any further enquiry, in this connection, however, appears unnecessary, in view of the fact that the management is not under any obligation to pay any worker for any unauthorised work. The workmen doing such unauthorised work are not entitled to receive any wages or dearness allowance. In this connection, O.P.W. 1, Shri Singla, very, candidly said that the management agreed to pay up to 22nd February the wages on the basis of production of an individual work. The management did not agree to pay to those who didn't do the work at the allotted place but did it elsewhere.

P.W. 4 Theophil, P.W. 5 Bilasius, and P.W. 6 Manfiran were refused employment on 24th February 1958. The management's case is that they were issued charge-sheets for misconduct on that day but was not placed under suspension. They, however, didn't do any work since that day. These charge-sheets were sent by a messenger and also by registered post. Due enquiry was held on 8th March 1959, after due notices and they were dismissed on specific charges with effect from 10th March 1958. The workmen's case is that these dismissals are illegal and unjustified. The workmen were victimised for their Union activities and most arbitrarily dismissed without charge-sheets and enquiry and thereby violating all principles of natural justice. The management-witnesses deposed in support of the management's story, and the three workmen concerned deposed in support of their case. These workmen denied the charges and said that there was no enquiry into the alleged charges and there was no issue of charge-sheets. Exts. M-25 to 27 are the charge-sheets. Exts. M-10 to 15 are notices sent to the dismissed workmen. Notices of enquiry are Exts. M-20 and 22 and reports of enquiry are Exts. 16 to 18. O.P.W. 1 Shri Singla held the enquiry and O.P.W. 2 Kumud and O.P.W. 3 Shri K. N. Khandelwala, Garden Babu and his assistant deposed in the enquiry. Their evidence is quoted in the report Ext. 18. The manager, who held the enquiry found them guilty of misconduct under the Standing Orders, section 1, clause 1(15) and (7). The manager dismissed them with effect from 10th March 1958 for misconduct. The charge-sheets are Exts. M-25, 26 and 27. O.P.W. 4 Lal Sing, Chowkidar, served the notices. The notices were sent by registered post. They were refused. It is very difficult to brush aside all these evidence on the side of management and to hold that there was no enquiry into the charges and that no charge-sheet was ever issued to the workers. In fact, I have on evidence reached the opposite conclusion. There were enquiry held into the charges. The manager who held the enquiry found them guilty and dismissed them. In fact, 4 other workmen were dismissed along with these 3, but were reinstated in terms of the settlement, dated 16th April 1958. These 3 workmen were offered alternative employment at a place, which is very close to the garden, and the management's report to the Assistant Labour Commissioner shows that the offer was turned down by these men. These men however denied all knowledge of this offer. I have perused the charge-sheets, the enquiry report and the evidence mentioned therein and also considered the evidence recorded by me in this case. These men took leading part in the agitation over reduction of the Ticca in Section 6. Four other men were workers allotted to Section 6, but these men, the garden record shows, were allotted work elsewhere. Apparently they came leaving their jobs and led the workmen there with a view to secure the reduction of the Ticca. The fact of disobedience to the order of the supervisory staff is there, and these men are guilty of it. The evidence does not disclose any case of violent or riotous conduct or acts, which directly or indirectly incite others to violence. In fact, there was no use of force by any of these workmen. Now, disobedience to the orders of the superior, or indisciplined conduct and gross insubordination are under the certified Standing Orders, Ext. T, finable offence for which the manager, at his discretion, is empowered to impose fines or suspend the offending workers. Shri P. Nandy, for the workers contended, that the manager, being the prosecutor, cannot act as a Judge in this case and, therefore, the enquiry if there was any, was illegal. Shri S. C. Sen, on behalf of the management, relied on the Standing Orders, the Ext. T, and refuted the argument of Shri Nandy and urged that the manager was the proper authority to hold the enquiry and was justified in doing that. I find no impropriety or illegality in the manager's holding this enquiry, when he is the sole authority, under the Standing Orders to hold it and take disciplinary action in cases of all misconduct. The whole question is whether this dismissal, in case of a finable offence, is justified, or in other words, is the punishment unduly severe. In my view, the punishment appears to be unduly severe, and for a finable offence the offending workmen should not have been dismissed from service. They have been fined or suspended for their misconduct. The management had sought to make out from alleged subsequent activities of these dismissed workmen that they are extremely dangerous men who had forfeited all confidence of their employer by their conduct. Among others, evidence of an alleged act of rowdyism by these men was adduced before me. Bilasius and Theophil are now standing trial in a police assult case. The workmen concerned admitted that a case was pending against them for trial, but said that it was a false prosecution. On these materials, and in view of the fact that the case is sub judice, I am afraid, I shall not be justified in placing any reliance on it. In my judgment, the dismissal of these three workmen is not justified under the Standing Orders and also

in the facts and circumstances of the case. They should be suspended for the misconduct, which is a finable offence, under the Standing Orders. They should now be reinstated in service. In view of their refusal of the offer of alternative employment, in terms of the memorandum of settlement, they are not entitled to any back wages for the period of unemployment after the period of suspension. They should be reinstated, if they report themselves to duty, before the manager, in the garden, during working hours, within seven days from the date of publication of this award. They will forfeit their right to reinstatement if they do not do so.

This is my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Howrah Jute Company Ltd., Sibpur, Howrah, and their workmen represented by Howrah Jute Mills Karmachari Sangha, 73 Atindra Banerjee Lane, Howrah. (Case No. VIII- 37 of 1959.)

BEFORE THE THIRD INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri S. R. GHOSH, Judge, Third Industrial Tribunal.

For the Union: Shri Subhas Chandra Mitra, Secretary of the Union.

For the Company: Shri S. R. Zachariah, Chief Personnel Officer of the Company.

By order No. 494-I.R./IR/7L-39/58, dated the 11th February 1959, the Government of West

Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. Howrah Jute Company Ltd., Sibpur, Howrah, and their workmen represented by Howrah Jute Mills Karmachari Sangha, 73 Atindra Banerjee Lane, Howrah, regarding the matter specified in the schedule to the Third Industrial Tribunal, constituted under section 7A of the Industrial Disputes Act, 1947, by notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957, for adjudication.

Issue

Whether the claim of Shri J. N. Sen for a pay of Rs. 208 (rupees two hundred and eight) in the Special Grade is justified? To what relief is he entitled?

The reference was received by this Tribunal on 7th February 1959. After usual notices had been served upon the parties the Union, namely, Howrah Jute Mills Karmachari Sangha representing the workmen of Messrs. Howrah Jute Company Ltd., filed its written statement on 9th March 1959. Messrs. Howrah Jute Company Ltd. (hereinafter to be described as the Company) filed a written statement on 17th April 1959. After the pleadings were completed the case was set down for hearing on 30th September 1959 on which date the hearing was taken up and concluded. Arguments were heard and award was reserved.

AWARD

Issue No. 1: The admitted facts as can be gathered from the written statements of the parties are that Shri J. N. Sen (Shri Jitendra Nath Sen) is an employee of the Company since 1938, that he joined as a typist on a salary of Rs. 30 and his substantive post at the time of reference was that of a Steno-typist. It is also admitted that Shri Sen draws dearness allowance of Rs. 32.50 nP. and his total wages excluding the dearness allowance is Rs. 203 per month. According to the Union the entire sum of Rs. 203 represents the basic salary of Shri J. N. Sen and according to the Company Shri Sen's basic salary is Rs. 183, his Stenographer's allowance is Rs. 20 per month and these two items make up his wages as Rs. 203 per month excluding his dearness allowance. The contention of the Union is that the allowance of Rs. 20 per month as spoken of by the management has merged in the basic salary of Shri Sen and his basic salary was fixed at Rs. 130 per month with effect from 1st January 1950. The contention of the Company is that in 1949 the managing agents of the Company decided that the Stenographer's allowance given to Shri Sen might be treated as his basic pay only for the purpose of Provident Fund deductions and not for the purpose of fixing his grade in service. Now the question for decision is, whether the admitted present salary of Shri J. N. Sen which is Rs. 203 represents his basic pay or whether it represents the total of his basic pay of Rs. 183 per month plus Stenographer's special allowance of Rs. 20 per month. On this point the Union has referred to its Annexure B a letter by the Mill Manager, dated 6th May 1950 [Ext. 1(a)]. This letter shows that the basic pay of Shri Sen was fixed at Rs. 130 per month with effect from 1st April 1950. It does not speak about any Stenographer's special allowance of Rs. 20. The Union also refers to another letter to the Mill Manager, dated 20th December 1957 [Ext. 1(d)] which purports to show that the basic salary of Shri J. N. Sen was Rs. 203 in December 1957. But as I have already stated the Company's contention is that this merger of the allowance of Rs. 20 with the basic pay was only for the purpose of Provident Fund deductions and not for fixing the grade. This would be clear from the Company's Exts. A to A5. The letter Ext. A/2, dated 26th September 1957, would further show that Shri Sen was drawing in September 1957 maximum basic salary of Grade I, namely, Rs. 183 per month besides the usual Stenographer's allowance of Rs. 20 per month. The increment lists of the employees of the Company between the years 1949 and 1959 (Ext. C series) which were admittedly typed by the Stenographer Shri J. N. Sen (P.W. 1) will also show that Shri Jitendra Nath Sen (J. N. Sen) was drawing his salary which included special Stenographer's allowance of Rs. 20 per month. On 14th March 1953 Shri J. N. Sen addressed a letter to the Manager, Howrah Jute Company Ltd. (Ext. B) in which he admitted that he was then drawing a total salary of Rs. 145 which included the special allowance of Rs. 20. It is, therefore, clearly found from evidence on record that in 1957 the monthly salary of Shri J. N. Sen was Rs. 203 which included the basic salary of Rs. 183 and the Stenographer's special allowance of Rs. 20. It is further proved as also admitted by Shri J. N. Sen in his evidence before this tribunal as P.W. 1, that Shri Sen himself typed the increment lists (Ext. C series) and he came to know that he was placed in Grade I of the Company's grades for the clerical staff.

In the present reference Shri J. N. Sen claims monthly basic salary of Rs. 208 in the special grade on the ground that as his basic salary is now Rs. 203 and there is no such stage in the scale of the special grade as fixed for the Company by the Third Jute Award of 1955, he should be placed in the special grade with salary of Rs. 208 per month with retrospective effect from the year 1957. The Union's contention in this respect is that under the Third Jute Textile Award of 1955 revised grades and scales of pay applicable to the Jute Mill clerical staff were laid down and certain principles were also laid down for fitting the employees in the revised grades and that the said grades and scales of pay are applicable to Howrah Jute Company Ltd., and that the Special Grade II as per the said award applies to Shri Sen's case. By the Third Jute Textile Award, dated 20th September 1955, the Special Grade II was revised by the learned Tribunal as S.B. Rs. 108—10—208 in place of Rs. 100—10—200 of the Special Grade II. So what Shri Sen wants is that he may be fixed in the S.B. Grade of Rs. 108—10—208, with his pay as Rs. 208 as he is already getting Rs. 203 and there is no such stage in the aforesaid grade between Rs. 200 and Rs. 208. He, therefore, wants that he may be fitted in the next higher stage, i.e., Rs. 208. To this the Company's contention is that Shri Sen is working in Grade I which has been revised in the aforesaid award as Rs. 78—5—143—E.B.—10—183 and that he has

reached the maximum of that grade, namely Rs. 183 and that the balance of Rs. 20 included within his salary does not form part of his basic pay but as a special Stenographer's allowance which is in addition to his basic pay. The Company further contends that the promotion to next higher grade is in the discretion of the management and it has been so observed by the learned Tribunal in the Second Jute Textile Award of 1951 as also in the Third. The Company also urges that the question of fitting Shri Sen in the next higher stage of a grade to which he has not been lifted does not arise at all as the fitting into the new grades of Grade I and Special Grades S.B. and S.A. of the Third Jute Textile Award was limited to the clerical staff in Mills other than those of the Jardine Henderson Group of Mills, to which Messrs. Howrah Jute Company Ltd., admittedly belongs.

Be that as it may, it is clearly established from the evidence on record as is also admitted by Shri J. N. Sen himself (P.W. 1) before this Tribunal, that he has been placed in the Grade I for the Company's clerical staff to his knowledge and he made repeated request to the Company for putting him on the higher grade. Records do not show that Shri Sen was placed in the special grade of Rs. 108—10—208 as revised by the Third Jute Textile Award. As I have already found, the monthly salary of Rs. 203 which Shri Sen is now getting does not entirely represent his basic salary but that it represents his basic salary of Rs. 183 which is the maximum limit in the Grade I in which he is working plus his special Stenographer's allowance of Rs. 20 per month. The promotion to the next higher grade, namely, the Special Grade S.B. 108—10—208 is a matter which is in the discretion of the management itself. It is true that Shri Sen has rendered many years of meritorious service to the company and his splendid services have been appreciated by the Company by recommending special increments for him even double increments, which ultimately the company could not pay. Still on the basis of the Third Jute Textile Award Shri J. N. Sen cannot as a matter of right claim basic salary as Rs. 208 in the special grade S.B. 108—10—208 of the Company as revised by the Third Jute Textile Award of 1955. In the circumstances, I find that the claim of Shri J. N. Sen for a pay of Rs. 208 in the Special Grade as claimed by him is not justified as discussed above.

Although Shri J. N. Sen is not entitled to be automatically promoted to the S.B. Grade of Rs. 108—10—208 with its pay fixed at Rs. 208 as claimed by him in the circumstances noted above, I think that in equity he may be given a further allowance of Rs. 5 per month by the Company in special recognition of the meritorious service he has rendered to the Company for long years since 1938 as the Company itself has appreciated the same. The Company may give this further allowance of Rs. 5 per month to Shri J. N. Sen as special merit allowance thus raising his total salary to Rs. 208 per month excluding the dearness allowance with effect from 1st of November 1959. Shri J. N. Sen will remain in Grade I, in which he is at present, in spite of this further allowance.

This is my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Indian Iron & Steel Co. Ltd., Burnpur and their workmen of the Melting Shop in the Burnpur Works, represented by five workmen, namely, Sarbashri Niladri Dey, Nandalal Misra, C. R. Kelly, B. N. Goswami and R. B. BEFORE THE ARBITRATOR, INDUSTRIAL DISPUTES ACT, WEST BENGAL

Present:

Shri M. N. GAN, Arbitrator.

For the Union: Shri D. L. Sen Gupta, Advocate, with Shri Chandrasekhar Mukherjee, Shri Nandalal Misra and Shri A. Datta Gupta.

For the Company: Shri S. C. Sen, Advocate, with Dr. Dhodapkar, Shri N. R. Datta, Superintendent, Steel Production, and Shri A. K. Mukherjee.

This is a case of voluntary reference to arbitration, under section 10A of Industrial Disputes

Act, 1947, of an industrial dispute between Messrs. Indian Iron & Steel Co. Ltd., Burnpur (hereinafter referred to as the employer), and their workmen of the Melting Shop, in the Burnpur Works, represented by five workmen, namely, Sarbashri Niladri Dey, Nandalal Misra, C. R. Kelly, B. N. Goswami, and R. B. Singh, all of the Melting Shop, of Indian Iron & Steel Co. Ltd., Burnpur Works. This reference was made on the 12th September 1958 by the Government of West Bengal, Labour Department, by an order No. 3844-I.R./IR/10L-36(D)/58.

This reference is the outcome of a signed agreement, dated the 9th August 1958, between the said parties, reached at a tripartite meeting held on 8th July 1958.

This was received in the office on 18th September 1958 and the parties were informed of the same by registered notices and were asked to submit statements of the case in writing. The parties, since then, submitted written statements and counter-statements, and supplementary written statements, and a number of other statements on various points, from time to time, meant to be used as evidence in the investigation of the dispute.

The procedure adopted was informal and both parties availed of all reasonable opportunities to place their respective view points jointly, and separately before me. No oral evidence of any witness was tendered by the Company. The workmen, however, examined Shri Nandalal Misra, as a witness on their side.

At the suggestion of the parties, I visited the Burnpur Works, and had the opportunity of acquainting myself with the different manufacturing processes of the steel plant, particularly those of the Melting Shop. The representatives of both sides had very kindly explained to me the salient features of the plant operations touching the present dispute. At Burnpur, I had long discussions with the representatives of both parties with a view to ascertain the real points of the dispute and the suggestions for resolving the same.

Thereafter, I heard the parties at length, at Calcutta, before writing this award.

The employee's case, briefly stated, is that the Melting Shop, "the mother plant of the steel section" had a Production Bonus Scheme in 1940. This was revised in 1949. In 1940's scheme, a John-Puri Agreement, the four important features were (1) tonnage, (2) wages taken, (3) number of days, and (4) diviser amongst others. Under this scheme, since revised, as aforesaid, a percentage of bonus was paid on 47888 rollable steel at 148.5 per cent. The Melting Shop employees are roughly 650 men. This scheme was changed without consulting the workmen concerned in the dispute, on or about 29th May 1955. It was done even without their knowledge. It was therefore unjustified, unfair, arbitrary and mala fide. Under the new scheme, the old scheme was thoroughly changed. The operations of the new scheme however resulted in a substantial loss of their earnings. The present dispute is limited to the new Production Bonus Scheme in the Melting Shop alone. The employees had asked for the restoration of the old scheme, with "all its implications with retrospective effect, since 29th May 1955 and other reliefs".

In reply, the employer denied the aforesaid allegations of the employees and stated, among others, that a bonus scheme, introduced in 1941, was revised in 1947. The fundamental principle, underlying this scheme, is that it is liable to revision only in the event of any addition to the equipment of a unit, section, department, or change of practice "in consultation with the Union". In fact, a well-defined bonus scheme was introduced in all the departments in 1941 under which, on an average of 45 per cent. increase in wages was allowed to all employees concerned by the scheme.

The employer's further case is that, in accordance with the principles of the scheme, a new scheme was formulated, within the knowledge of the employees' Union, which finally replaced the old scheme in May 1955. This was done, after measures were adopted since 1946 to improve the production. A Bessemer plant was commissioned in 1946 and arrangements were made for better utilisation of Bessemer converters, in co-ordination with the Melting Shop furnaces and coke-oven gas and tar firing of "two Melting Shop furnaces". The employer also brought the technical experts from foreign countries for helping the acceleration of all productions. In the ordinary course, and according to the terms of the scheme of 1941 and 1947, the employer could have revised the old scheme, at a much earlier date, but could not do so for "various reasons". Uncertain political situation in the country, and the growing unrest among the labour force are some of the reasons, which prevented the management from taking any action disliked by the labour. Consequently, the matter was allowed to rest for some time. The employers contested the claim, and denied the alleged loss of Employees' earnings.

The following issues arise for investigation:—

(1) Whether the change effected in the Production Bonus Scheme, existing prior to May 1955, is justified?

(2) Whether the change is mala fide, arbitrary and unjustified?

(3) Whether it has actually resulted in any loss in the earnings of the workmen?

(4) If so, whether the old Bonus Scheme be restored?

(5) To what other relief, or reliefs, if any, are the workmen entitled?

Whether such reliefs be given effect to restrospectively?

AWARD

Findings on Issues Nos. 1-5: The Melting Shop at Burnpur, has a labour force of 650 to 750 men. It is the mother plant of the steel section. It started production in 1939, with one furnace with a capacity of 200 tons. In 1940, two more furnaces of 200 tons capacity were added making 3 in all. Another furnace of 100 tons capacity was commissioned in 1942. These 4 furnaces have a total installed capacity of 700 tons for melting at a

time. This installed capacity of 700 tons remained so until January 1958 at which time the first of 3 more furnaces, one of 300 tons capacity, and 2 of 200 tons each, came into production under the new expansion scheme.

The Company started paying Production Bonus to the workers of different departments in different years and had to make several changes in them from time to time. In 1941, however a well-defined Production Bonus Scheme was formulated for all departments and introduced in all departments of the works along with the Melting Shop. This scheme was revised in 1947, and was replaced by the present scheme—the one in dispute—in May 1955.

The workmen concerned didn't like this scheme mainly because it resulted in the alleged substantial loss in their earnings. Also because it was introduced without previously consulting them and without their knowledge. They demanded its withdrawal and for restoration of the earlier scheme of 1947 and even resorted to strike to enforce their demand. After a period of unsuccessful negotiation for an amicable settlement, the parties agreed to this arbitration of the said dispute. The employer, as already stated, stands by the present scheme, stoutly denies the allegation of loss of earnings and contends that the new scheme is in many respects, more beneficial to the workmen than the old, which it replaced and offers fair opportunity to all to earn even a higher percentage of bonus. At the same time, it appears, that the employer had, paid 25 per cent. extra bonus for one month, and from time to time paid 5 to 10 per cent. extra as ex gratia bonus in addition to what was payable under the scheme. The question is, whether, the framing and introduction of the new scheme is justified. It would not be justified if it had taken away, without any good reason, a very substantial portion of the bonus which the workmen in the Melting Shop had enjoyed for about last 8 years.

I consider it unnecessary to refer to and/or enter into polemics over other technical points of objections raised in the pleadings. A bare reference to a recent decision of the Hon'ble Supreme Court, in Titaghur Paper Mills Co. Ltd., versus its workmen, reported in 1959, II Labour Law Journal, page 9, is enough to dispose of the matter. The scheme has become a term of employment and therefore, its revision or replacement is not altogether something which is unexpected or unlikely. It is true that a scheme, which is introduced by the management and accepted by the Union, cannot be lightly interfered with. The said decision is an authority on the point. Interference with such a scheme can only be made for good and cogent reasons such as, a material change in methods, products, tools, materials, designs or production conditions, or a saving in labour cost and the like maintaining as far as possible established relationship between earnings and efforts and avoiding rates which will give result out of all proportion to the basic wage.

The management had stated that a Production Bonus Scheme was liable to revision from time to time under the rules of the schemes themselves. It has, accordingly, referred to paragraphs 25 and 26 of the Employees' Bonus Scheme, out lines of which are given in Annexure C. As a matter of fact, the management took up the question of revision sometime in 1949, and due to uncertain political situation in the country and other reasons set forth in its written statement, the scheme could not be put into operation earlier. On top of that alterations in the 1947 scheme, were found expedient due to changes in practice introduced in the Melting Shop together with the proposed increase in the number of steel furnace in the same shop. In paragraph 14 of its written statement the employer has explained the reasons which led to its formulation and introduction in 1955. "In view of the pending increase in the productive earning capacity of the Melting Shop (installation of additional producing units) ways and means were discussed as to how to avoid the present bonus scheme causing abnormal high bonus earnings due to the installation of the new furnaces."

The rules of the Employees' Bonus Scheme permitted the employer to make alterations in the scheme from time to time on the happening of certain contingencies in consultation with the Union. In the present cases, the management presented the scheme to Mr. John, the President of the Union, and explained to him the out lines of the scheme. It was drafted and signed and sent to the Union for its final approval. The management, however, does not say that the Union gave its approval in this matter. For unexplained reasons, the Union's approval of the scheme could not be secured. At least, no such evidence was placed before me. In the present dispute, the workmen of the Melting Shop are not represented by any Union, but by 5 gentlemen, from among the workmen. The reasons, for this representation, are given in paragraphs 4 to 8 of the workmen's written statements. The workmen's case is that the scheme was drawn up and settled behind their back. I believe that the disputed scheme was not consented to by the workmen to whom it applies. The management, however, consulted the Union in the sense that it asked for its advice with regard to this scheme from the recognised Union. The rules didn't require them to do nothing more. Consultation means "taking counsel or advice". The management has enumerated, at page 6, of its additional written statement the grounds for introducing the scheme. They are—

(1) change in the method of steel production,

(2) utilisation of Bessemer Converter Plant,

(3) use of coke-oven gas and tar in furnaces,

(4) furnace availability due to time saving in repair works,

(5) improvement and introduction of new tool for facility of production, viz., more crane facilities in the open hearth charging gantry, after 1947, provision of 10 tons crane in place of 75 tons and the introduction of the system of working one up and one down method for converter blowers in 1951,

(6) increase in manning.

The workers, however, stated, that nothing important took place after 1947, which could account for greater production than before. It was due to their greater efforts under the inspiring

adership of Mr. Moffet and Mr. N. R. Dutta at had the desired result. It is to some extent ue that all the machineries were installed in or fore 1947, but then their full utilisation was ly possible from 1951. Not only rules permitted e introduction of the new scheme but then the tered circumstances due to introduction of new ethod, new machineries and increased manning lly justified it. Further, the question of emoluents—after all bonus paid to a worker is a part his emoluments—and remuneration can never be atic. It must undergo changes with the circumances under which a worker is employed. The roduction Bonus Scheme cannot be an excepon to this general rule. No scheme however rfect, can be said to be good for all times to me. The law, to which references are made rlier, doesn't say that a Production Bonus heme once introduced would be sacrosanct, i.e., say, would run forever. A glance at the nnexure E to the employer's written statement ould show that a total number of 304 employees ere employed in the Melting Shop, under the 941 scheme, with 3 active furnaces, and a total mber of 750 men were employed in the same op in 1957 with 4 active furnaces. The yearly oduction in tons in 1941, was 215,946 and that 1957 was, 532,315 (highest in any year). The arly production per capita remains the same mely 710 tons only. This doesn't prove the sertion of the workmen to the contrary to be ue. The cost of production has in the meantime ne up out of all proportion and to the capital vested.

Now, the payment of Production Bonus is based pon production, and is in addition to the wages. effect, it is an incentive to higher production d is in the nature of an incentive wage. There e various plans of Production Bonus but whatver may be the nature of the plan, the payment, effect, is an extra emolument for extra effort ut in by the workmen over the standard that may e fixed. And the fundamental principle undering such a bonus is the reduction of the cost of roduction by inducing the workers concerned to ive more production, or outturn within the xisting set up of manning and the machineries. n framing the disputed scheme, the employer as taken into consideration the sum total of all ese circumstances. It would not be incorrect to ay that the avowed object of the scheme, in disute, was to put a ceiling on the earnings of roduction Bonus. Shri Misra has said that the peration of the scheme has resulted in loss of arnings, the maximum of which would be Rs. 150 er month per head. Dr. Dhodapkar, who has at ll times, assisted all of us in explaining the heme, of which he may be the author, had in me cases, proved, by demonstration, that the ss, if there be any, was only negligible, and that, ven now, under the present scheme with efforts, worker has got greater opportunity to earn a igher percentage of bonus. He had also shown hat, in some respect, the scheme is beneficial to the verage workmen, who come under the purview f the scheme. That there was some loss in the arnings is evident from the papers placed and xplained before me. I would have wondered if had not done so, for after all, somehow or other, workman under the 1947 scheme was allowed to arn 150 per cent. Production Bonus in addition to his wages, although strictly speaking this scheme was limited in its operation up to 100 per cent. only. But then, this loss in the earnings alone, in the altered situation, does not prove the workers' contention that the introduction of the new scheme was mala fide and unjustified. On a consideration of facts and circumstances, and of what I have seen at the place, and heard from the parties direct, I find that the introduction of the scheme is not mala fide and unjustified.

The new scheme is full of immense possibilities and has been framed, not only to make it perfect for the present but also with an eye to the future. The Indian Iron & Steel Co., Ltd., Burnpur, is one of the very few premier organisations of this kind in this country. It has a great future, and has an equally great scope for expansion under the Third Five-Year Plan. The industry is expanding. Starting from a small nucleus, it has already developed into a big factory. The contribution of the workmen employed in this concern is no small, and the employer is gradually recognising it. The Production Bonus Scheme for workmen employed in this industry must necessarily be comprehensive enough to present suitable opportunity for everybody to do his best to produce more and to earn more. The new scheme, the one under consideration, satisfies, to a large extent, the aims and aspirations of all concerned. The old scheme is likely to prove a heavy and unjustifiable burden on the industry not only at present, but in future. It was considered good at a time when it was made. It has become, if I may put it, obsolete due to the introduction of new methods of work, new appliances and tools, and installation of new machineries. The old scheme can no longer offer that incentive to work now, with more machines and men working in the shop, than it used to do when less number of men were by their manual efforts used to give production. Hence, reversion to the old scheme and its restoration, in the present dispute, will take away that incentive from the workmen which it used to present before. Moreover, as I have already said, it would throw an unnecessary heavy burden on the finances, and will be thus detrimental to the prosperity of the industry. In my view, the old bonus scheme cannot be restored.

Next, it remains to be seen, whether workmen in view of the findings recorded above, are entitled to any relief or reliefs in this case. The operation of the new bonus scheme as, it is said, resulted in loss of earnings. The workmen led by Shri N. Misra have demonstrated before me that in some cases there has been actual loss in earnings. I have already found that the new scheme has succeeded, in its mission, to keep down the earnings to some extent, while presenting facilities to earn more up to a ceiling of 170 per cent. with sustained efforts. I didn't examine cases of all the 750 men employed in the Melting Shop. I didn't consider that necessary. The parties who were very ably defended before me, here and at Burnpur, didn't ask me to do that. I think there are good reasons for that. In the first place, the new scheme was a boon to the men of average ability and seniority. Lastly, it is admitted on behalf of the workmen, that the employer, out of bounty, made sufficient amends for the loss by making ex-gratia payments for 25 per cent. bonus in one month (which was

discontinued after that), and, on an average, making payments of 5 to 10 per cent., in addition to what was payable under the scheme. On these facts, and in these circumstances, it would be reasonable to hold that any possible losses incurred were already made good by the employer. The workmen, in my view, therefore, cannot reasonably ask for payment of any further compensation of any loss under the old scheme.

Lastly, what are the real grievances of the workmen against the new bonus scheme? What, according to them, are its demerits, which apart from any other consideration should be remedied? Their grievances are mainly these—

(1) In the old scheme for purposes of calculation of bonus, the out-put of all the furnaces were taken together. New scheme—each furnace is taken as a unit.

(2) Old scheme—weekly productions were taken. New scheme—daily production of each unit.

(3) Old scheme's actual rate of wages—new scheme—mean point (with 99 per cent. of the men employed on the top of their grade).

(4) Old scheme, 27 was used as diviser, whereas in the new scheme, 31 days in a month are taken as a diviser.

(5) Old scheme—bonus was calculated on the officiating pay, new scheme, on the mean of next higher grade.

For proper appreciation of the real points of dispute, it is necessary to study the two Production Bonus Schemes. The workmen have given outlines of the two schemes in appendix of their written statements, whereas the employer has reproduced the two schemes in their entirety in Annexures B and C to their written statement. They have also produced the Production Bonus Scheme of 1941 and Production Bonus Scheme of 1947 (complete) in two separate books Exts. A, A1. Shri S. C. Sen, Advocate, on behalf of the employer, with Dr. Dhodapkar, Industrial Engineer, explained the two schemes, with the help of a number of prepared statements. Shri D. L. Sengupta, Advocate, with Shri N. Misra, on behalf of the workmen, explained the demerits of the scheme also with the help of several statements. Both sides discussed the point threadbare with me. Shri N. R. Dutta, the Superintendent, Steel Production, on behalf of the employer, and Shri Misra, with his colleagues on behalf of the workmen, did their best to explain the different processes of operations in the Melting Shop and thus clarified some points in the dispute. The employer had in the supplementary written statement given elaborate reasons explaining the points of the new scheme to which objections were taken by the workmen. After all, I was not convinced about the reasonableness of the workmen's grievances so far as the points Nos. 1, 2 and 4 above are concerned. It is for good reasons that each furnace was taken as a unit under the new scheme and the daily production, in place of weekly, is also no change to which any reasonable objection can we taken. It has ween stated by the Employer that the plant is now working continuously i.e., to say, there is normally no break in the continuity of production. It is, therefore, idle to say that 4 or 5 days in a month, on the whole are unproductive days. That was correct when, in the previous years the shop was closed on Sundays when there was no production. It is, therefore, only meet and proper that, in the changed circumstances the scheme should take note of them, in order to do justice to the claims of the workmen. The diviser 27, therefore, cannot be applied now when all the 31 days in a month are productive days But then, other 2 points of objections appear to be reasonable. The workmen's allegations and evidence are that 99 per cent. of the men in the Melting Shop are, at the moment, on top of their grades. We can take it that the majority of the workmen (may not be 99 per cent.) is on the top of their grades. The Production Bonus must therefore, be calculated not on the mean between the minimum, or maximum of the wages of the workmen concerned, but on the actual rate of wages drawn by them. That was the rate of wages under the old scheme. I am not convinced that the reasons advanced by the management in support of this change are good. Under the old scheme bonus, in the case of an employee, acting for another employee, was calculated on the actual wages payable to him during such acting appointment. The departure from that rule in the present scheme, does not appear to be justified when he is paid bonus, not on the actual wages, but on the mean of the next higher grade from which he is promoted. I think in both these cases the workmen are entitled to be paid bonus on the actual rates of wages, and not on the mean between the maximum and minimum of the grades or at the next higher grade as the case may be. The workmen's grievances, on the whole, are also against

the rates of bonus which count more than anything else. A carefully drawn up table of bonus rates against the rates of production, in the Melting Shop, appears in table No. 2 of the Company's written statement. Bonus percentage, a reference, to these 2 tables, clearly shows that the new scheme has a ceiling at 170 per cent., and that it commences from 30 per cent. in place of 10. In actual fact, no one ever earned a bonus of more than 150 per cent., under the old scheme, though strictly speaking such bonus was limited to 100 per cent. only. In some respects, therefore, the new scheme offers better advantages to a workman than the old, but then the rates really matter. Calculated at the rates, according to slabs, given in tables Nos. 1 and 2, the earning would be much less. In fact, the management at times made ex-gratia payment, when the bonus earnings fell below a certain percentage, namely, the normal expectations of the workmen. I think all these justify a revision of the scheme, and there should be a general revision of rates. In my view, a flat general increase by 10 per cent. on the rates of the new scheme is likely to satisfy the aims and aspirations of all concerned. This will at once remove the present discontent among the workmen over the payment of Production Bonus and that at the same time this would do away with the necessity of making ex-gratia payments now and then to make up for the loss in the earnings. The new Production Bonus Scheme will be amended in accordance with the directions given in this award and that the payment of bonus, at the amended rates under this award, shall be made with effect from 1st of this month, i.e., 1st October 1959.

This is my award.

NOTIFICATION

Subject: Certified List of Postal Life Insurance Premia.

No. TM/740.—3rd November 1959.—It has been brought to notice by the Director, Postal Life Insurance, Calcutta, that a large number of items of Postal Life Insurance Premia is lying unposted in the Premia Ledger Accounts in his office owing to the incorrect and incomplete preparation of the Certified Lists of Postal Insurance Premia.

The Certified Lists of Postal Insurance Premia are prepared by this office from the P. L. I. deduction schedules accompanying the monthly pay bills and verified as to their correctness with the covering and the consolidated lists of Postal Insurance premia prepared by the Treasury Officers and sent to this office with the monthly accounts.

As the correct preparation of the certified lists depends on the accurate preparation of the P. L. I. deduction schedules by the Drawing Officers as well as the correct preparation of the covering and the consolidated lists of Postal Insurance premia prepared by the Treasury Officers, it is requested that to ensure preparation of the certified lists correctly by this office, the following instructions may kindly be noted by all Drawing Officers of the Central and State Governments under the audit control of this office as well as by all Treasury Officers in West Bengal:—

(1) Credits should not be shown in lump without complete details and without supporting schedules.

(2) Policy number of insurants should be correctly recorded in the schedules.

(3) Particular care should be taken to avoid erroneous totals.

(4) Classification of the credits should be properly indicated.

(5) In the case of double recoveries or late recoveries complete reference to the month to which the premia relate as also the particlar pay bills from which the recoveries have been effected should be invariably quoted and an explanation for the late recovery also furnished in the remarks column of the schedule where necessary.

(6) Short or excess recoveries should be explained in the remarks column of the schedules.

(7) If in the schedule of a particular month, the name of an insurant included in the previous month's schedule is omitted, reasons for the omission should be invariably stated therein.

(8) While making fresh entries in the schedule of a particular month it should be clearly indicated whether the insurant is a new entrant or has been transferred from some other office or establishment. In the later case the name of the office or establishment should also be mentioned.

(9) Changes in address or designation of the insurants, should invariably be noted in the remarks columns of the schedules.

(10) Where an insurant has more than one policy, details of the policy numbers, amounts should be separately shown in the schedule and then totalled up against the particular insurant.

(11) Supporting P. L. I. deduction schedule should invariably be attached with the premia list and a covering schedule detailing entries of all the schedules should also be attached so that the particulars on missing schedule can be verified at sight.

ANNEXURE

In the matter of an industrial dispute between Messrs. Louis Dreyfus & Co., Ltd., Punjab National Bank Buildings, 18A Brabourne Road, Calcutta-1, and their workmen represented by the Burrabazar Jamadar Sangh, 90 Lower Chitpur Road, Calcutta-7.

BEFORE THE SECOND LABOUR COURT, WEST BENGAL

Present:

Shri HEM RANJAN DEB, Presiding Officer, Second Labour Court.

Acting under section 10 of the Industrial Disputes Act, Government of West Bengal, Labour Department, by their order No. 3422-I.R./IR/11L-246/58, dated Calcutta, the 16th August 1958, referred to the Second Labour Court, an industrial dispute between Messrs. Louis Dreyfus & Co., Ltd., and their workmen represented by the Burrabazar Jamadar Sangh, for adjudication.

Issues formulated in the order of reference are as follows:—

Issues

(1) Is the dismissal of Shri Indradeo Kurmi and Shri Brahmadeo Singh justified?

(2) To what relief are they entitled?

The case of the Union, briefly stated, is as follows:—

Shri Indradeo Kurmi and Shri Brahmadeo Singh were serving under Messrs. Louis Dreyfus & Co., Ltd. as a bearer and a durwan respectively. Their duties inter alia were to post registered letters in the Post Office. On 19th December 1957, charge-sheets were issued against them on the allegation that they were parties to a conspiracy to defraud the company in the matter of the value of stamps affixed to the registered letters. They gave their explanations on 20th December 1957. On receipt of their explanations the company fixed 23rd December 1957 for holding enquiry; but the enquiry was postponed on several days and eventually it was held on 21st February 1958. On that date and in the following day, i.e., 22nd February 1958, eleven witnesses were examined on behalf of the the company; but the two workmen in question were not allowed to cross-examine those witnesses or to produce evidence in their defence. Thereafter the management by its letter dated 12th March 1958, dismissed the above two workmen. The Union contends that the action of the company in dismissing the above two workmen was unjustified, mala fide and opposed to the principles of natural justice, as they were not given reasonable opportunity to defend themselves.

The company has raised an initial objection stating that this Court has no jurisdiction to adjudicate on the matter on the ground that this is an individual dispute and not an industrial dispute. Its contention is that the Burrabazar Jamadar Sangh which has taken up the case of two dismissed workmen is not a trade union of the employees of the company and does not represent them.

As regards the issue in question the case of the company is as follows:—

In course of the year 1957, the company experienced a considerable increase in its expenses on account of postage as compared with previous years without any apparent reason for such increase. Accordingly the company's Calcutta Office made an arrangement with its London office to carry out a check of postages on mail despatched from Calcutta to London. As a result of that check and subsequent enquiries made by the company at its Calcutta Office, it discovered that there was in existence a conspiracy amongst the company's despatching clerk, the two dismissed workmen and some clerks at the Esplanade Post Office to defraud the company in respect of postage. Thereafter the company issued charge-sheets to the workmen in question and held enquiries on 21st February 1958 and 22nd February 1958. In consideration of the evidence adduced at the said enquiries, the enquiring officer who held the enquiries came to the conclusion that the charges against the two workmen in question were proved beyond all possible doubt. Accordingly the company dismissed them.

Appearances of the parties are as follows:—

For the Company: Mr. D. K. De, Bar-at-law of Messrs. Victor Moses & Co., Solicitors.

For the Union: Shri Lenin Roy, Advocate with Shri Sachidananda Pandey, Secretary of the Union.

FINDINGS

As to the preliminary objection, the Union has produced its membership register (Ext. 3) wherein

names of 25 employees of Messrs. Louis Dreyfus & Co., Ltd., have been shown as members. The Union has also produced counterfoils of receipts (Ext. 4), showing realisation of subscription from them. The company, on the other hand, has proved an office circular, dated 25th April 1959 (Ext. B) wherein the company wanted to know from all its employees numbering 81 whether they were members of Burrabazar Jamadar Sangh, the Union in question. All of them excepting five who were on leave on that date have intimated that they were not members of that Union. The Union has not produced its accounts in support of the counterfoils of receipts (Ext. 4). It is easy to note down the names of some persons in the membership register. There is no reason to disbelieve Ext. B. So the evidence as disclosed by Exts. 3 and 4 cannot be believed vis-a-vis the evidence shown by Ext. B. So I hold that the employees of Messrs. Louis Dreyfus & Co., Ltd., with the possible exception of the two workmen in question are not members of Burrabazar Jamadar Sangh which has taken up the case of the two dismissed workmen. As such, I hold that this is not an industrial dispute.

As to the issue mentioned in the order of reference, both sides have adduced evidence in support of their respective contentions. The company has produced papers showing the evidence recorded at the enquiries and the report of the Enquiring Officer. On a perusal of the evidence I am of opinion that on such evidence the Enquiring Officer might have come to a finding that Shri Brahmadeo Singh might be a party in the conspiracy; but the evidence against Shri Indradeo Kurmi is absolutely unconvincing. So I hold that the dismissal of Shri Brahmadeo Singh is justified, but the dismissal of Indradeo Kurmi is not justified.

In spite of the above finding I am unable to grant any relief to Shri Indradeo Kurmi, as I have held above that this is not an industrial dispute and as such the reference made by Government is invalid.

Schedule

Whether the discharge of Shri Rabindra Nath Dutta is justified? To what relief is he entitled?

AWARD

This is a dispute arising out of alleged illegal and unjustified discharge of Shri Rabindra Nath Dutta, previously employed in Messrs. Sharma & Co., 66 College Street, Calcutta, hereinafter referred to as the Company for the sake of brevity.

The Union contends that the workman was employed as a salesman in the Company for the last 3 years, but as he took active leading parts in trade unionism and threatened the Company with a charter of demands, the latter was extremely enraged against him and victimised him by a sudden notice of discharge on 3rd February 1958. The Union, therefore, seeks his reinstatement with other reliefs.

The Company, on the other hand, contends that as its business was dwindling, the workman was found surplus to its requirements, and therefore the Company had no alternative but to discharge him. Hence, the Company contends that no relief is admissible to the workman.

Decision

7th September 1959 was fixed for hearing of the dispute. As soon as the hearing commenced, parties came to terms and put in a joint petition of compromise whereby the Company agreed to pay Rs. 375 to this workman within 31st October 1959, and accordingly the Union withdrew all claims made in this reference. The terms of compromise appear to be fair, reasonable and lawful and may be given effect to. The dispute is, therefore, disposed of in terms of the petition of compromise which do form a part of the award.

Chandra & Sons, 127A Bowbazar Street, Calcutta, which is one of the flourishing jewellery firms in Calcutta, hereinafter referred to as the Company for the sake of brevity.

The Union's case in short is that this workman Shri Anil Kumar Ray was employed on a salary of Rs. 125 per month, but the Company victimised him as he took leading parts in active trade unionism against the Company. RULES OF BUSINESS FOR KOTRUNG MUNICIPALITY.

1. The time of meetings, the business to be transacted at meetings and the period of notice of meetings.

1. An ordinary meeting of the Commissioners shall be held at the hour of 8 p.m. on the first Saturday of every month:

Provided that if the first Saturday of any month falls on a gazetted holiday, or if for any reason it is deemed inconvenient, the Chairman or in his absence the Vice-Chairman may fix another day for the ordinary meeting.

2. Other meetings may be held on such day and at such time as may be fixed by the Chairman, or in his absence by the Vice-Chairman.

3. Notice of motions and questions, accompanied by verbatim drafts shall be sent to the Chairman, or in the case of there being a Secretary, to the Secretary, in time to be included in the list of business for the next meeting. Notice received too late shall be inserted in the list of business of the next succeeding meeting.

4. A notice book shall be kept by the Chairman in which all notices of motions shall be entered. All such notices shall be dated and numbered as soon as received.

5. At least one week's notice of all meetings shall be given to every Commissioner.

6. When a notice of a meeting has been issued to the Commissioners it shall not be cancelled or postponed unless at least three clear days' notice of such cancellation or postponement is given to the Commissioners:

Provided that in no case shall a meeting, of which due notice has been given, be cancelled or postponed if by such cancellation or postponement the business on the agenda cannot be transacted within a definite period prescribed by law for the purpose.

II. The conduct and control of proceedings at meetings, the due record of all dissents and discussions and the adjournment of meetings.

Order of Business

7. At ordinary meetings the business shall be conducted in the following order:—

(a) The minutes of the last ordinary meeting, and of any special meeting held thereafter, shall be read and if approved as correctly entered, shall be signed by the President of such meeting.

(b) Business postponed from the last ordinary meeting shall be considered.

(c) A progress report of works shall be laid before the Commissioners.

(d) Letters and reports of Committees shall be read and accounts and statements shall be considered and passed.

(e) Motions of which due notice has been given shall be discussed.

8. At a special meeting, only the business for which the meeting was called shall be considered; provided that with the consent of the Commissioners present any other business, of which notice has been sent to every Commissioner at least three days previously, may be considered.

9. In the event of any objection being raised to the manner in which any resolution has been recorded, the President shall decide the question after reference to the original draft of the resolution, and if he finds the minute to be inaccurate, shall make the necessary correction in the minute book.

10. Except by the permission of the majority of the Commissioners present at the meeting, all subjects shall be discussed in the order in which they appear in the list of business.

Of Questions

11. If due notice has been given under rule 3, any Commissioner may, before other business commences, ask a question or questions of the President relating to the affairs of the municipality. Such Commissioner may briefly explain his question when putting it, and the President may explain his answer; but no debate shall be allowed on any question. The President shall, when he thinks it advisable, have the answer to such question printed and laid before the meeting.

Of Motions and Amendments

12. Every motion and amendment duly moved shall be seconded, and, until seconded, no debate thereon can take place.

13. Every motion or amendment duly made and seconded, and pressed to a division, shall be reduced to writing and signed by the proposer and the seconder before being put to the vote. Every such motion or amendment shall be recorded in full in the proceedings, together with the number and names of voters for and against it.

14. Every amendment shall be worded as to be capable of making an intelligible sentence either alone or in its proper place in an original motion, as the case may be; provided that no amendment shall be allowed which in effect only negatives the original motion.

15. After a motion has been moved and seconded an amendment may be moved at any stage of the debate thereon.

16. On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first and if it is lost, he shall put the amendment preceding the last amendment and lastly the first amendment and, if all the amendments are lost, the original motion shall be put to the vote.

17. When a motion or an amendment has been put from the Chair, and has been declared by the President to be duly carried, no further proposals for amending the motion or amendment can be entertained.

Of the Right to Speak

18. The President may require the Commissioners to stand when they address the meeting.

19. The Commissioner, who first rises to address the meeting, shall be entitled to be heard first, and should more than one Commissioner rise to address the meeting at the same time, the order of precedence shall be determined by the President.

20. Any Commissioner shall be at liberty to call the attention of the President to a point of order, even when a Commissioner is speaking. On a point of order being raised, the Commissioner addressing the meeting shall resume his seat until the question has been decided by the President. After the decision of the President, the same point of order cannot be raised again. Except as provided by this rule no Commissioner shall interrupt a speaker in possession of the meeting.

21. Except as provided in rule 11, or rule 21, no Commissioner shall speak except to move or second a motion or amendment, or to support or oppose a motion or amendment which has been duly moved and seconded.

22. A speaker, who has exhausted his right to speak on an original motion, may speak on any amendment being moved, as that raises a new question.

23. The mover of a motion of amendment shall, in all cases, have a right of reply, but otherwise no Commissioner shall speak more than once on the same motion or amendment, unless in explanation of some part of his original speech.

Of protests or dissents

24. Protests shall be limited to a concise and definite statement of the motives which prompted the votes of Commissioners who voted in the minority on a given question.

25. Protests shall be handed to the President before the conclusion of the meeting at which the motion protested against was passed.

26. Protests duly made shall be appended to and publish with minutes.

Of Adjournments

27. It shall be competent to any Commissioner to move the adjournment of the debate or of the meeting in a speech not exceeding five minutes in duration.

28. When a motion for the adjournment of the meeting or of a debate is made, it shall be seconded without a speech, and put by the President to the vote without debate or amendment.

29. No motion for the adjournment of the meeting or of a debate shall be admissible which proposes an adjournment beyond the next ordinary meeting.

Adjournment Meetings

30. No business shall be transacted at an adjourned meeting save that which was left unfinished at the original meeting.

Miscellaneous

31. Unless not less than two-thirds of the Commissioners consent by singing a requisition, no subject once finally disposed of can be reconsidered within six months of its disposal.

32. For the purpose of taking into consideration any business involving many details, the meeting may resolve itself into a committee of the whole body. When such action has been taken, the rule prohibiting any person from speaking more than once on the same question shall be deemed suspended until the meeting resumes.

33. Voting by proxy is prohibited; and no Commissioner shall vote upon any motion or amendment unless he is present in person at the time when it is put to the vote.

34. The minutes shall contain a brief abstract of the discussion on every motion.

35. A copy of the minutes of the proceedings of any meeting of the Commissioners shall be supplied to every Commissioner, who may apply for it. An abstract of the minutes shall be affixed in some conspicuous spot accessible to the public at the place of meeting of the Commissioners.

III. The custody of the common seal

36. The common seal shall remain in the custody of the Chairman; provided that if a Secretary has been appointed, the Chairman may by a written order delegate the custody of the seal to the Secretary.

IV. Division of duties among the Commissioners

37. The Commissioners may, from time to time, delegate to one or more of their number the duty of inspecting any work which is being carried out under their orders or any institution under their control and management.

V. (i) Manner of appointment of committees

38. The Commissioners at a meeting may for each year appoint any of the following or other standing committees as may appear to be necessary in accordance with section 86 of the Act, namely:—

(1) Finance Standing Committee.

(2) Public Works Standing Committee.

(3) Sanitation and Public Health Standing Committee.

(4) Medical Standing Committee.

(5) Standing Ward Committee for any ward or group of wards:

Provided that the Standing Warding Committee shall include the Commissioner or Commissioners representing the ward or group of wards as the case may be, for which the committee is appointed.

39. The members of a standing committee shall hold office for one year only but shall be eligible for reappointment.

40. Save in the case of illness, a member of a standing committee who, without the previous permission of the Commissioners, shall fail to attend six consecutive meetings of such committee, shall thereby cease to be a member and the committee shall apply to the Commissioners at a meeting to appoint another member in his place.

41. Whenever any Commissioner shall move a motion for the appointment of a committee of a special nature, under section 80 of the Act and such motion is duly seconded and carried, it shall be incumbent on the mover—

(1) to move that the committee shall consist of a definite number of persons (any other number may be moved as an amendment); and

(2) to draw up a list of as many persons as may be thus fixed for constituting the committee. On this list being seconded, any other Commissioner may either move the substitution of any one or more names for one or more of those contained in the list proposed by the mover of the original motion:

Provided always that if a ballot be demanded by at least five members the Chairman shall put it to the meeting whether they wish the election to be by ballot and if this is carried the committee shall be elected by ballot.

(ii) Constitution of Committees.

42. A standing committee shall not consist of more than nine members and no Commissioner shall at the same time be a member of more than two standing committees.

(iii) Regulation and conduct of business of Standing and Special Committees.

43. Every committee shall confirm to any instructions that may from time to time be given to them by the Commissioners at a meeting.

44. Every committee shall appoint one of their number to be their chairman; provided that no person shall at the same time be the chairman of more than one committee.

45. In the absence of the chairman the members of the committee shall choose one of their number to preside over their meeting.

46. A committee may meet and adjourn as it thinks proper.

47. The quorum of a committee shall be one-third of its total number, provided that not less than two shall constitute a quorum.

48. Every question at a meeting of a committee shall be determined by a majority of votes of the members present and voting on that occasion.

49. In case of an equal division of votes the president shall have a second or casting vote.

By order of the Governor,
S. K. CHAKRABORTY, Asst. Secy.

NOTIFICATION

Subject: Certified List of Postal Life Insurance Premia.

No. TM/740. 3rd November 1959. It has been brought to notice by the Director, Postal Life Insurance, Calcutta, that a large number of items of Postal Life Insurance Premia is lying unposted in the Premia Ledger Accounts in his office owing to the incorrect and incomplete preparation of the Certified Lists of Postal Insurance Premia.

The Certified Lists of Postal Insurance Premia are prepared by this office from the P. L. I. deduction schedules accompanying the monthly pay bills and verified as to their correctness with the covering and the consolidated lists of Postal Insurance premia prepared by the Treasury Officers and sent to this office with the monthly accounts.

As the correct preparation of the certified lists depends on the accurate preparation of the P. L. I. deduction schedules by the Drawing Officers as well as the correct preparation of the covering and the consolidated lists of Postal Insurance premia prepared by the Treasury Officers, it is requested that to ensure preparation of the certified lists correctly by this office, the following instructions may kindly be noted by all Drawing Officers of the Central and State Governments under the audit control of this office as well as by all Treasury Officers in West Bengal:—

(1) Credits should not be shown in lump without complete details and without supporting schedules.

(2) Policy number of insurants should be correctly recorded in the schedules.

(3) Particular care should be taken to avoid erroneous totals.

(4) Classification of the credits should be properly indicated.

(5) In the case of double recoveries or late recoveries complete reference to the month to which the premia relate as also the particlar pay bills from which the recoveries have been effected should be invariably quoted and an explanation for the late recovery also furnished in the remarks column of the schedule where necessary.

(6) Short or excess recoveries should be explained in the remarks column of the schedules.

(7) If in the schedule of a particular month, the name of an insurant included in the previous month's schedule is omitted, reasons for the omission should be invariably stated therein.

(8) While making fresh entries in the schedule of a particular month it should be clearly indicated whether the insurant is a new entrant or has been transferred from some other office or establishment. In the later case the name of the office or establishment should also be mentioned.

(9) Changes in address or designation of the insurants, should invariably be noted in the remarks columns of the schedules.

(10) Where an insurant has more than one policy, details of the policy numbers, amounts should be separately shown in the schedule and then totalled up against the particular insurant.

(11) Supporting P. L. I. deduction schedule should invariably be attached with the premia list and a covering schedule detailing entries of all the schedules should also be attached so that the particulars on missing schedule can be verified at sight.

The parties aforesaid have come to an amicable settlement on the following terms:—
